To Planning Manchester City Council

Proposed Temporary non illuminated Advertisement for the duration of four weeks.

Dear Sir/Madam, in response to the request for a method statement, please see information below.

All works will be under safe supervision, undertaken with clear weather.

The advertisements will securely fixed a timber post and framework, within a walled garden at the front of the adjacent public house of which the land belongs;

No advertisement is to be displayed without the permission of the owner of the site or any other person with an interest in the site entitled to grant permission.

Advertisement shall be sited or displayed so as to not endanger persons using the highway, or adjacent facilities.

No advertisement shall be sited or displayed so as to obscure, or hinder the ready interpretation of, any traffic sign.

No advertisement shall be sited or displayed so as to hinder the operation of any device used for the purpose of security or surveillance or for measuring the speed of any vehicle.

Any advertisement displayed, and any site used for the display of advertisements, shall be maintained in a condition that does not impair the visual amenity of the site.

Any structure or hoarding erected or used principally or the purpose of displaying advertisements shall be maintained in a condition that does not endanger the public.

Where an advertisement is required under the Regulations to be removed, the site shall be left in a condition that does not endanger the public or impair visual amenity.

Method Statement

1. The client will start by saying placing 6 wooden spiked posts equally spaced into the ground.

2. Posts are safely secured into the earth, with clearance of any tree root.

3.Once the posts are in the ground and are happy that they are not going to move and they are level

4.The client will use screws with metal washers through the metal eyelets in the banner so securing it to the wooden posts. There a similar post that are commonly used in the country side in farmers' f fields to keep cattle within limits.

Removal

Unscrew the screws/washers and then we can simply pull the wooden posts out of the ground, and the ground is returned to normal.
