Comment Reasons:
Comment:[redacted].
The plans show that the house will have full glass windows, Juliet balcony on the top and floor to ceiling windows on the bottom at the back of the house which will overlook ours and other properties, leaving us all with no privacy at all.
Three houses have just recently been built on Sussex Avenue and the design for these houses on the back were beautifully built and in keeping with the surrounding properties. The designs for this property are not in keeping with these or any on the road at all.
I also feel the roof height and the property being three stories, is not in keeping with the rest of the properties on Sussex Avenue or the back of Cranmer Road, it's far to high. All of the new build properties on this road had their original planning permission rejected for this reason. They are all now only two stories (as are all the other properties on the road).
It would be lovely to have a house that is in keeping with the surrounding area.
