Hi Sue

After reviewing my survey notes, i realised that i have shown the existing fence position in the wrong location therefore i have updated drawing 2 existing plan to show the gate in its correct location. Moving forward the fence line would be relocated to it new position as shown on drawing 1 using the same materials and any fence line void which needs to be filled, similar materials would be used. All updated drawings are attached with this email.

I hope this would clarify everything and should you require further information please do not hesitate to contact me.

Regards

Mohsin

> Dear Moshin,
>
> the location of the fencing and gate as shown on plan ref. 01 A does not reflect the current location of the fencing and gate arrangement, which is currently located between the proposed side window location and the location of the proposed extension where it projects out from the side elevation of the existing house. As such please can you confirm that the existing fencing would be relocated to the new location shown on the plan ref: 01 revA . If it is proposed to use different fencing , please provide details of proposed fencing.
