### **Compliance with conditions**

- Your planning approval or consent is attached. It will contain conditions that you must comply with.
- Please read the conditions and understand their requirements and restrictions, for example submission and approval of details or measures to protect trees.
- Some conditions will require action before you start development and it is imperative that you seek to have these discharged before any work commences.
- Whilst every effort has been made to group conditions logically, it is your responsibility to ensure that you are aware of the requirements and/or restrictions of all conditions.
- If you fail to comply with the conditions this may result in a breach of planning control and this may lead to enforcement action.
- Failure to comply with conditions may also result in the development not being lawful.
- It is in your interests to demonstrate that conditions have been complied with. Failure to do so may cause difficulties if the property is sold or transferred.
- A fee is payable for each request to discharge conditions.
- For advice on any of these matters, please contact Planning, Manchester City Council, PO Box 532, Town Hall, Manchester M60 2LA or email [planning@manchester.gov.uk](mailto:planning@manchester.gov.uk)

3) The materials to be used on the external surfaces of the extension hereby permitted shall be implemented in accordance with the details as set out in the application form, approved drawings and Design and Access Statement in Condition 2 of this permission.

4) Any works to trees to implement the permission hereby granted, shall be carried out in accordance with the recommendations contained within the approved Arboricultural Impact Assessment prepared by MP Trees (Dated July 2021). Among other mitigation measures, this will include the removal and re-building of the terrace at existing ground level using a no-dig, hand-tool only methodology, and use of a mini-pile and beam foundation design. In addition, the new terrace will need to be constructed using a semi porous or porous surface layer to ensure gas and moisture exchange to roots within the Root Protection Area.

5) In this condition "retained tree" means an existing tree, shrub or hedge which is to be as shown as retained on the approved plans and particulars; and paragraphs (a) and (b) below shall have effect until the expiration of 5 years from the date of the occupation of the building for its permitted use.

- (b) If any retained tree is removed, uprooted or destroyed or dies, another tree shall be planted at the same place and that tree shall be of such size and species, and shall be planted at such time, as may be specified in writing by the local planning authority.
- (c) The erection of fencing for the protection of any retained tree shall be undertaken in accordance with the approved plans and particulars before any equipment, machinery or materials are brought on to the site for the purposes of the development, and shall be maintained until all equipment, machinery and surplus materials have been removed from the site. Nothing shall be stored or placed in any area fenced in accordance with this condition and the ground levels within those areas shall not be altered, nor shall any excavation be made, without the written consent of the local planning authority.

Reason - In order avoid damage to trees/shrubs adjacent to and within the site which are of important amenity value to the area and in order to protect the character of the area, in accordance with policies EN9 and EN15 of the Core Strategy.

6) All tree work should be carried out by a competent contractor in accordance with British Standard BS 3998 "Recommendations for Tree Work".

This decision relates to the extension or improvement of an existing dwellinghouse, falling within Class C3 of the Town and Country Planning (Use Classes) Order 1987 (as amended) and does not infer or imply approval for the use of the property for any other purpose.

Manchester City Council has made an Article 4 Direction to remove permitted development rights that allow for a change of use from Class C3 - *Dwellinghouses* to Class C4 - *House in Multiple Occupation*. This means that from 8 October 2011, planning permission is required for a change of use from a Dwellinghouse to a House in Multiple Occupation. Further information regarding the Article 4 direction can be found on Manchester City Council's website:

If you intend to use the property to which this decision relates for any purpose other than a dwellinghouse, you should first contact Manchester City Council's Planning Service. Failure to obtain any necessary planning permission prior to carrying out a material change of use or physical development could result in enforcement action being taken, which can have serious implications.

This permission does not grant approval under Building Regulations.
