Description:

4. Trees Ownership

Is the applicant the owner of the tree(s)? (•) Yes ( ) No

5. What Are You Applying For?

Are you seeking consent for works to a tree(s) subject to a TPO? ( ) Yes (•) No

Are you wishing to carry out works to tree(s) in a conservation area? (•) Yes ( ) No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s) enter its title or number below

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).
Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.
E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

One apple and one pear tree. They are very old, too large for our small garden and they have been over-pruned so do not bear fruit nor look attractive (see comments from tree surgeon)

8. Trees - Additional Information

For all trees
A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

For works to trees covered by a TPO
Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

1. **Condition of the tree(s)** - e.g. it is diseased or you have fears that it might break or fall:
   If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert. ( ) Yes (•) No

2. **Alleged damage to property** - e.g. subsidence or damage to drains or drives. ( ) Yes (•) No
   If YES, you are required to provide for:

   Subsidence
   A report by an engineer or surveyor, to include a description of damage, vegetation, monitoring data, soil, roots and repair proposals. Also a report from an arboriculturist to support the tree work proposals.

   Other structural damage (e.g. drains, walls and hard surfaces)
   Written technical evidence from an appropriate expert, including description of damage and possible solutions.

Documents and plans (for any tree)
Are you providing additional information in support of your application? (•) Yes ( ) No

If Yes, please provide the reference numbers of plans, documents, professional reports, photographs etc in support of your application:

Paul Hodgson of the Tree Station inspected the two trees for us and commented: "they have been over pruned and if we carry out more pruning work on them, they won't look very nice. I would recommend felling and re-planting." He recommend replanting with "a heavy standard Cherry 'Spire' (Prunus amanogawa) in the centre of the garden, which would be an ideal species for the size of the garden". We intend to follow his recommendation.
