# APPENDIX I – CONTINUED

22 AUG 200

**(vi) Eurobins (660 & 1100 litre capacity):**

These are wheeled bins with four wheels and should conform to British Standard BS EN 840: 1997. They have a fixed lid, which can be supplied with a lock if required, and are suitable for residential and mixed developments and also offices of up to 2,500m² in size.

Several manufacturers supply Eurobins, some of which may be incompatible with the City Council's waste collection vehicles. The Development Division can advise which type of Eurobin would be acceptable.

Refer to (v) for detailed requirements for the waste store.

Dimensions (mm)

| Capacity (litres) | 660 | 1100 |
|---|---|---|
| Width (lid open) | 820 | 1260 |
| Length | 1265 | 1370 |
| Height | 1320 | 1380 |
