Hi Lucy,

Apologies for the delay in getting back to you, I've been on leave.

In respect of waste management, please see attachments, denoting all of the locations of the waste and recycling containers. The containers will be emptied by Biffa as part of the cleansing contract for the City. The mobile cleaning attendants will also be Biffa staff, meaning a cohesive approach and live reporting system should any of the containers require additional servicing. Biffa will have two designated vehicles assigned solely for the Christmas Markets and collections will take place at all of the collection points on a regular basis throughout the day. In addition to this, the mobile cleaning attendants will carry out a cardboard collection each morning on each site. This ensures that as much waste as possible is recycled and helps to minimise contamination into the general waste. Biffa will supply an itemised breakdown of all of the collected waste such as glass, plastics, cardboard etc so that it can be monitored and improved upon in subsequent years. The markets team enter the Manchester Christmas Markets into the Green Awards for Event Waste Management and have won in previous years.

Mulberry Street also houses bottle bins for recycling. Collections will be taking place whilst the market is operational as this will be required during trading hours.

With regards to deliveries, they will be limited to between the hours of 22.00 and 09.00. I will forward through the information and access routes for trader deliveries shortly.

Kind Regards

James Kearns
Consultant Senior Building Surveyor
