Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

We are proposing to situate a 20 foot shipping container (20'x8'x8'6" / 5896 x 2350 x 2393 mm) on the grounds of Levenshulme Old Library to be used to house the "Manchester Library of Things". The Library of Things is a community interest company setting up in order to allow access to useful but rarely used goods to everyone in the community. It will be a real community asset and there is lots of support for the idea locally. The Library of Things website is here - www.mcrlot.com. Please see attached press release and the community survey responses for more information about the Library and why it is important to people in the community.

The container will be placed to the left of the old library building when looking front on. This is currently a green area that is not used. The ground is soft earth. There are hedges and trees lining the perimeter of the site boundary which will give some visual coverage. We will ask community artists to design and paint the container so it becomes an attractive and interesting community feature. We are also intending to have a living bee garden on the roof and planters around the outside. If needed, we can camouflage the container entirely using climbing plants / walls planters. We can also encourage further growth of the hedges at the boundary to hide the container. Our preferred option is to make the container attractive and visible as shown in Plan 2 attached, however if the council deems it more appropriate to camouflage the container we can do this with plants and screens (also shown in Plan 2).

We are intending the container to be a temporary measure to accommodate the Library of Things and expect it to be situated at Levenshulme Old Library for no more than 2 years. We are already looking at alternative options for the library.

The container will be placed on 150mm thick reinforced concrete slabs on top of a bed of 300mm well compacted hardcore.

The container will be securely bolted and padlocked. Additional security lighting will be fitted.

Has the work or change of use already started?

- ☐ Yes
☒ No

Existing Use

Please describe the current use of the site

The site is an unused green space that edges the old Library building and is up to the boundary wall. It is earth / grass with hedges / bushes around the perimeter. The entire site includes the Levenshulme Old Library and its grounds. The Library is used as a community arts centre and has various groups and events happening throughout the week.

Is the site currently vacant?

- ☐ Yes
- ☒ No

Does the proposal involve any of the following? If Yes, you will need to submit an appropriate contamination assessment with your application.

Land which is known to be contaminated

- ☐ Yes
- ☒ No

Land where contamination is suspected for all or part of the site

- ☐ Yes
- ☒ No

A proposed use that would be particularly vulnerable to the presence of contamination

- ☐ Yes
- ☒ No

Materials

Does the proposed development require any materials to be used externally?

- ☒ Yes
- ☐ No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material)

Type:
Other

Other (please specify):
Shipping container

Existing materials and finishes:
The old Library building is made out of brick with a slate roof and glass windows.

Proposed materials and finishes:
The shipping container will be standard design and materials. Made of steel. Placed on a compacted bed of hardcore (at least 300mm) with reinforced 150mm thick paving slabs on top for the container to sit on. The container will either be wooden clad with pockets attached, to the outer walls and roof, for growing plants to make the container "camouflaged" or will be brightly decorated to make it a local feature and talking point.

Are you supplying additional information on submitted plans, drawings or a design and access statement?

- ☒ Yes
- ☐ No

If Yes, please state references for the plans, drawings and/or design and access statement

- Plan 1 - birds eye view site plan with boundary in red
- Plan 2 - Sketch of the container in situ with living walls and screen
- Plan 3 - new pedestrian access and positioning of the container as viewed from the street.

Details of the pre-application advice received

Dear Maria,

Thank you for your email.

A full planning application will be required. In addition to application forms the submission will need to include:

- i. A site location plan identifying the site, i.e., with a red edge around the boundaries of the library site;
- ii. A site layout drawing identifying the proposed position of the container;
- iii. Details of the appearance of the container. Ideally, a scaled drawings should be provided. However, if the actual container has been identified photographs or manufacturer's details with dimensions can be provided.
- iv. Details of proposed security measures should be provided, including details any related fencing enclosures, lighting and alarm system, if proposed.

It is recommended that consideration be given to the siting of the container in a position that minimises its visual impact of the streetscene.

It would not be usual for the permanent siting of the container to be approved. Instead, it is recommended that the application seeks permission for siting for a temporary period, e.g., 24 months.

I hope that the above is helpful.

Yours faithfully,

Carl

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff**
- (b) an elected member**
- (c) related to a member of staff**
- (d) related to an elected member**

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
