To whom it may concern,

Proposed works to be carried out involve the removal of one conifer tree at the front of the 22 Pine Road. I have identified this tree as a Lawson's Cypress (*Chamaecyparis lawsoniana*). In my opinion this particular tree does not contribute to the Conservation Area status of the property, and allowing the continued growth of the tree will cause further damage to the front wall and could in future create a hazard.

Please do not hesitate to contact me regarding this application for tree work.

Yours sincerely, Megan Poole
