If Yes, please describe:

The existing garage is to be partially integrated into the proposed extension. It should be noted that the existing garage is presently used as a utility/ storage space and with the width of the space only being around 2.2m it isn't feasible to be able to drive a modern car into the space and be able to comfortably get out of the vehicle, so although we are losing a space denoted as a garage it isn't actually a practical garage
