7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).
Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.
E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

The tree is the only tree at the front of 25 Cresswell Grove and is on the boundary with the front pavement and next to the driveway. See "Siteplan" showing the tree located at A.
The Tree is a Lime Tree - advised by tree surgeon to sectionally fell it (see Nick Bailey Tree Surgeon Recommendation's).
Reasons for felling are (see also "photograph document"): 1) The Tree is currently lifting up the whole of the driveway for the second time , 2) is overhanging half the road to the front, 3) the top is physically touching both the neighbouring property and 25 Cresswell Grove, 5) a carport has been created underneath the tree to protect the car from a large amount of debris, 6) in summer there is excessive shading to the property, 7) will soon cause (if not all ready) structural problems to the house itself and 8) is of low amenity value.
Replanting would be possible in a better location if required.

8. Trees - Additional Information

For all trees
A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes).
It would also be helpful if you provided details of any advice given on site by an LPA officer.

For works to trees covered by a TPO
Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

   If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert. ○ Yes ◉ No

2. **Alleged damage to property** - e.g. subsidence or damage to drains or drives.
