208 OLDHAM ROAD

MANCHESTER

M4 6BQ

ADDITIONAL INFORMATION

The site is in a predominately , business setting, with no overlooking residential premises.

It was noted by the owner, adjacent premises have undertake various security measures, these being external roller shutters.

Therefore, to ensure security to this new business, external roller shutters were added to ground floor level.

Thereby, ensuring security to both the premises and shop frontage.

We trust this would be considered as part of the application.
