
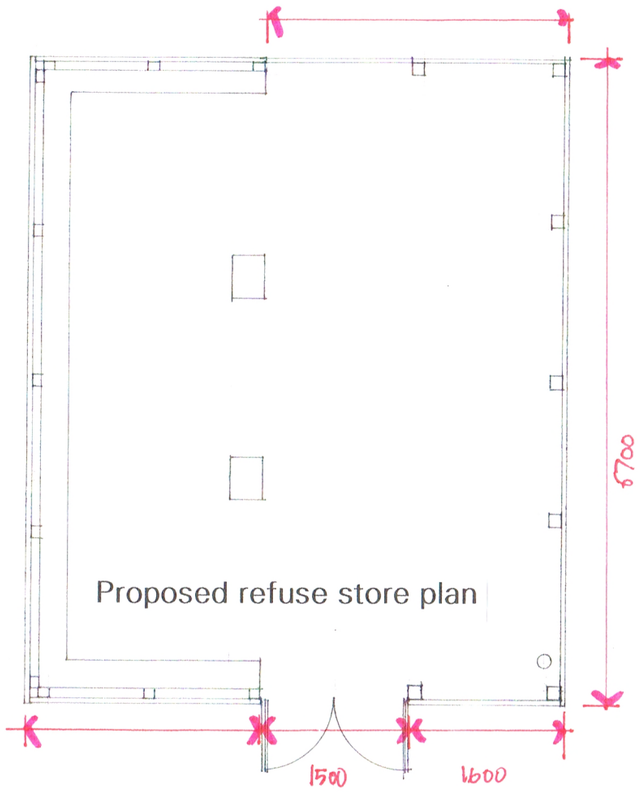
Existing refuse store plan



Proposed refuse store plan

75 x 25mm pressure preservative treated softwood sections screw fixed to 150 x 150mm pressure preservative treated softwood posts

75mm section to be spaced off 50mm and dead level across spanning post to post

Overcladding of existing brickwork to be fixed to 100 x 50mm pressure preservative treated timber sections fixed to brickwork using expanding bolts

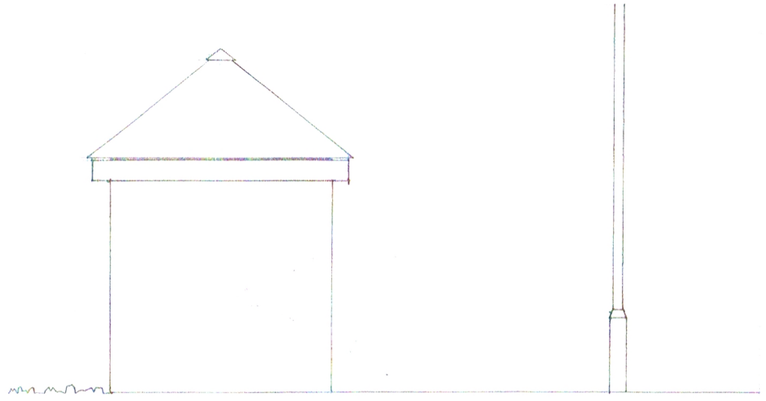
Each 75mm section should be fixed to the post using 2 no. 75mm passivated screws fixed at diagonals.

Post to be set in a proprietary steel shoe fixed to a concrete footing of minimum dimension 500 x 500 x 500mm and be minimum 600 mm below ground level

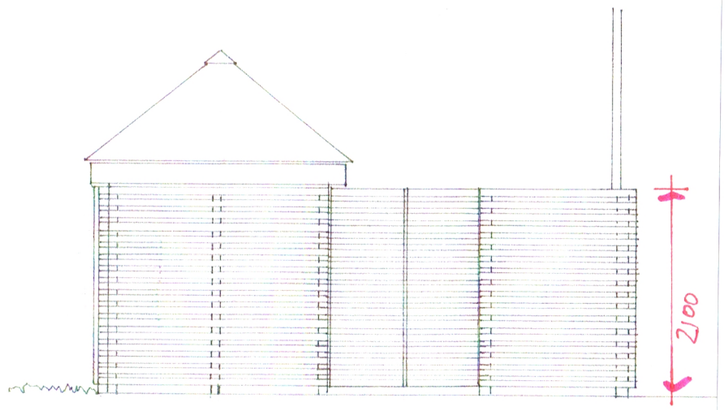
Make good to surrounding paving

2 no. framed and ledged doors to be fixed using heavy duty galvanised strap hinges and shoot bolts

Note existing lamppost sits within the extended refuse store



Existing refuse store elevation



Proposed refuse store elevation
