match-up

Dear Janine,

Please find enclosed the section and detail of the signage at Yo!sushi Spiningfields, I hope the drawing is self explanatory showing the sign inside the unit and not in contact with the glazing.

We also enclose a photograph of the type of etched vinyl signage we would like to use on the windows.

Also is enclosed a floor plan which shows we have re-configured the internal layout so that we will now no longer require obscure vinyl/graphic panel to hide the toilet wall which used to abut the glazing.

Please don't hesitate to phone to discuss any of the above; I look forward your comments

Yours sincerely

Philip Watts
