Colour accuracy

Every effort has been made to accurately reproduce colour swatches but for technical reasons associated with colour reproduction and render manufacture variations may occur. Please always ensure that a sample panel of the product and colour chosen is applied and approved before commencing any works.

Health & safety

Health and Safety datasheets for all Johnstone's Stormshield products are available on request.

Always read the health and safety datasheet for all products prior to use.

Experts in exterior colours

The impact of colour on the way we act and feel cannot be underestimated and at Johnstone's we understand the huge influence it holds. As a company with a long pedigree in coatings, we truly understand both the technical performance and psychological impact of colour. We offer over 16,000 colours in our Johnstone's range of coatings and have hand picked from these a range of over 200 render shades that not only offer a wide range of choice to our customers, but that are also available quickly from our industrial tinting facilities.

Colour that lasts

All of the colours featured in this colour guide have been chosen for their suitability for use on building facades as they offer excellent weathering and fade resistance. This is achieved through the use of high performance colour additives that have been extensively tested all over Europe for weather and UV resistance – in some of the sunniest climates of the Mediterranean and in the harshest of Alpine winters.

Bespoke colours

Speak to our colour experts for other shades that are not part of the standard render offer. We can produce unusual or special colours from across the colour spectrum to client request. Please note that additional lead times may be required for special colours.

For more information contact your Technical Sales Manager or call us on **01924 354354.**

Superb colour advisory

Whether you require bespoke colour schemes, colour samples or general colour advice, Johnstone's can provide the ideas and answers you need. Choosing from thousands of colours may prove daunting, so we have experienced colour consultants available to assist you throughout the colour selection process.

Colour sampling service

Should you need to see the actual renders in the colour chosen before making your final decision we are able to provide a fast, reliable colour sample for you, or alternatively we can arrange for one of our team to apply a panel to a building or area you specify.

Application

Johnstone's Stormshield External Wall Insulation and Render Systems have been carefully developed to offer the highest levels of performance and lifespan when applied to our specification. Please use our Application Guide for step by step assistance in the best way to apply render products.

External Wall Insulation

If you are choosing a render colour as a finish for an External Wall Insulation System you may want to review the Johnstone's Stormshield Complete System Guide for External Wall Insulation. The guide contains additional information about our systems and products to help you make the right choices for your project.

Technical Support

The Johnstone's Stormshield team of technical experts is on hand to assist you in applying our products, providing written project specifications and in helping you with difficult or challenging details. We'll visit your site and can provide most technical services you may require to ensure any project is completed to the highest possible standards.

For more information or to get a copy of the guides please call or email and we'll be happy to help you to get the most from our products.

Guide to Finishes

Johnstone's Stormshield
Silicone Enhanced Render 1.0mm

A high performance render formulated from acrylic resins and silicone additives to offer the perfect balance of value and durability.

LONG TERM PROTECTION | WATER REPELLENT | SIZE 1.0mm

Note: This product requires Johnstone's Stormshield Silicone Enhanced Primer to be applied to the substrate before application.

*Available in over 200 standard colours featured in this colour guide. Additional colours and colour matches may be available on request.

Coverage	2.0kg/m² (12.5m² per pack)
Pack Size	25kg
Colours	White & Tinted Colours *
Application	Steel Trowel or suitable spray
Expected Life	Over 30 Years #

#This product has been tested by the BBA and has a life expectancy of over 30 years when applied as part of a Johnstone's Stormshield system.

Johnstone's Stormshield
Silicone Enhanced Render 1.5mm

A high performance render formulated from acrylic resins and silicone additives to offer the perfect balance of value and durability.

LONG TERM PROTECTION | WATER REPELLENT | SIZE 1.5mm

Note: This product requires Johnstone's Stormshield Silicone Enhanced Primer to be applied to the substrate before application.

*Available in over 200 standard colours featured in this colour guide. Additional colours and colour matches may be available on request.

Coverage	2.5kg/m² (10m² per pack)
Pack Size	25kg
Colours	White & Tinted Colours *
Application	Steel Trowel or suitable spray
Expected Life	Over 30 Years #

#This product has been tested by the BBA and has a life expectancy of over 30 years when applied as part of a Johnstone's Stormshield system.

Johnstone's Stormshield
Full Silicone Render 1.0mm

A high performance render formulated from silicone resins to offer the highest levels of all weather and water protection.

LONG TERM PROTECTION | WATER REPELLENT | SIZE 1.0mm

Note: This product requires Johnstone's Stormshield Full Silicone Primer to be applied to the substrate before application.

*Available in the c.150 standard colours featured in this colour guide. Additional colours and colour matches may be available on request.

Coverage	2.0kg/m² (12.5m² per pack)
Pack Size	25kg
Colours	White & Tinted Colours *
Application	Steel Trowel or suitable spray
Expected Life	Over 30 Years #

#This product has been tested by the BBA and has a life expectancy of over 30 years when applied as part of a Johnstone's Stormshield system.

Johnstone's Stormshield
Full Silicone Render 1.5mm

A high performance render formulated from silicone resins to offer the highest levels of all weather and water protection.

LONG TERM PROTECTION | WATER REPELLENT | SIZE 1.5mm

Note: This product requires Johnstone's Stormshield Full Silicone Primer to be applied to the substrate before application.

*Available in the c.150 standard colours featured in this colour guide. Additional colours and colour matches may be available on request.

Coverage	2.5kg/m² (10m² per pack)
Pack Size	25kg
Colours	White & Tinted Colours *
Application	Steel Trowel or suitable spray
Expected Life	Over 30 Years #

#This product has been tested by the BBA and has a life expectancy of over 30 years when applied as part of a Johnstone's Stormshield system.

Johnstone's Stormshield
Dash Receiver Render

A high performance cement based render enhanced with polymers and reinforced with glass fibres to create the perfect surface for dry / pebble dashing.

LONG TERM PROTECTION | WATER REPELLENT | FINISH WITH AGGREGATE

Note: This product is supplied in powder form and requires mixing by the applier. This product has been specially formulated to be used in conjunction with Johnstone's approved dashing aggregates.

*Available in the 14 standard colours featured in this colour guide. Additional colours and colour matches may be available on request.

Coverage	10kg/m² (2.5m² per pack)
Pack Size	25kg
Colours	14 standard colours *
Application	Steel Trowel or suitable spray
Expected Life	Over 30 Years #

#This product has been tested by the BBA and has a life expectancy of over 30 years when applied as part of a Johnstone's Stormshield system.

Johnstone's Stormshield
Brick Effect Render

A high performance cement based render enhanced with polymers and formulated to be applied in two coloured coats and cut to create a brick effect.

LONG TERM PROTECTION | WATER REPELLENT | 2 COAT APPLICATION 1 Mortar Coat 2 Face Coat

Note: This product is supplied in powder form and requires mixing by the applier. Application of this product may require specialist tools. If in doubt please seek advice.

*Available in the 12 standard colours featured in this colour guide. Additional colours and colour matches may be available on request.

Coverage	12kg/m² (in total for 2 colours)
Pack Size	25kg
Colours	12 standard colours *
Application	Steel Trowel or suitable spray
Expected Life	Over 30 Years #

#This product has been tested by the BBA and has a life expectancy of over 30 years when applied as part of a Johnstone's Stormshield system.

Johnstone's Stormshield
Brick Slip Pointing Mortar

A high performance vapour permeable, polymer modified pointing mortar that has been specially formulated for use with brick and stone slips to offer excellent weather protection and durability.

LONG TERM PROTECTION | WATER REPELLENT | APPLY BY TROWEL/GUN

Note: This product is supplied in powder form and requires mixing by the applier. Application of this product may require specialist tools. If in doubt please seek advice.

Pack Size	25kg
Colours	7 standard colours *
Application	Pointing Trowel or Mortar Gun

Johnstone's Stormshield
Scratch Render

A high performance polymer modified through colour cement render formulated to offer a low maintenance, long lasting, tough and weather resistant finish.

LONG TERM PROTECTION | WATER REPELLENT | APPLY BY SPRAY/TROWEL

Note: This product is supplied in powder form and requires mixing by the applier. Application of this product may require specialist tools. If in doubt please seek advice.

*Available in the 14 standard colours featured in this colour guide. Additional colours and colour matches may be available on request.

Coverage	25kg/m² (1m² per pack)
Pack Size	25kg
Colours	14 standard colours *
Application	Steel Trowel or suitable spray
Expected Life	Over 30 Years #

#This product has been tested by the BBA and has a life expectancy of over 30 years when applied as part of a Johnstone's Stormshield system.

COMPLEMENTARY MASONRY PAINT PRODUCTS

In the addition to the above finishing renders Johnstone's offer a full range of high performance masonry paints, including smooth masonry paint, textured paints and pliolite based exterior coatings for a variety of substrates including previously rendered surfaces, rough cast brick, block and concrete.

In addition we also offer Self Cleaning Masonry paint which has been specifically developed to help exteriors look cleaner for longer and resist the dulling effects of pollution and weathering.

Silicone Masonry paint is also available and had been designed to provide the highest level of breathability whilst repelling surface water to ensure long lasting protection for exterior surfaces. It is uniquely formulated for application over existing silicone render and paint systems.
