Description of scheme

This scheme is proposed to provide an Accessible WC and pram shelter for the users of the library

Statement

(To be read in conjunction with drawings EY36159 – B001 to B003

The proposals are described below.

Pram Shelter

Position/location

The proposed location of the pram shelter at the front of the library offers the users of the library an easy and secure access for the temporary storage of their prams. Photograph no. 1

No. 1

Material

The frame of the shelter is manufactured from aluminium extrusion (to BS EN 755 1-9). The glazing is 6mm clear polycarbonate. The roof glazing is 4mm bronze polycarbonate. Photograph no. 2 illustrates the type of proposed shelter

No. 2

Colour

The proposed shelter is black. It is felt this will offer the greatest reduction in terms of visual impact because, black offers a perceived tradition aspect.

Accessible WC

Providing a unisex Accessible WC in accordance with Design for Access 2 (DFA2).
