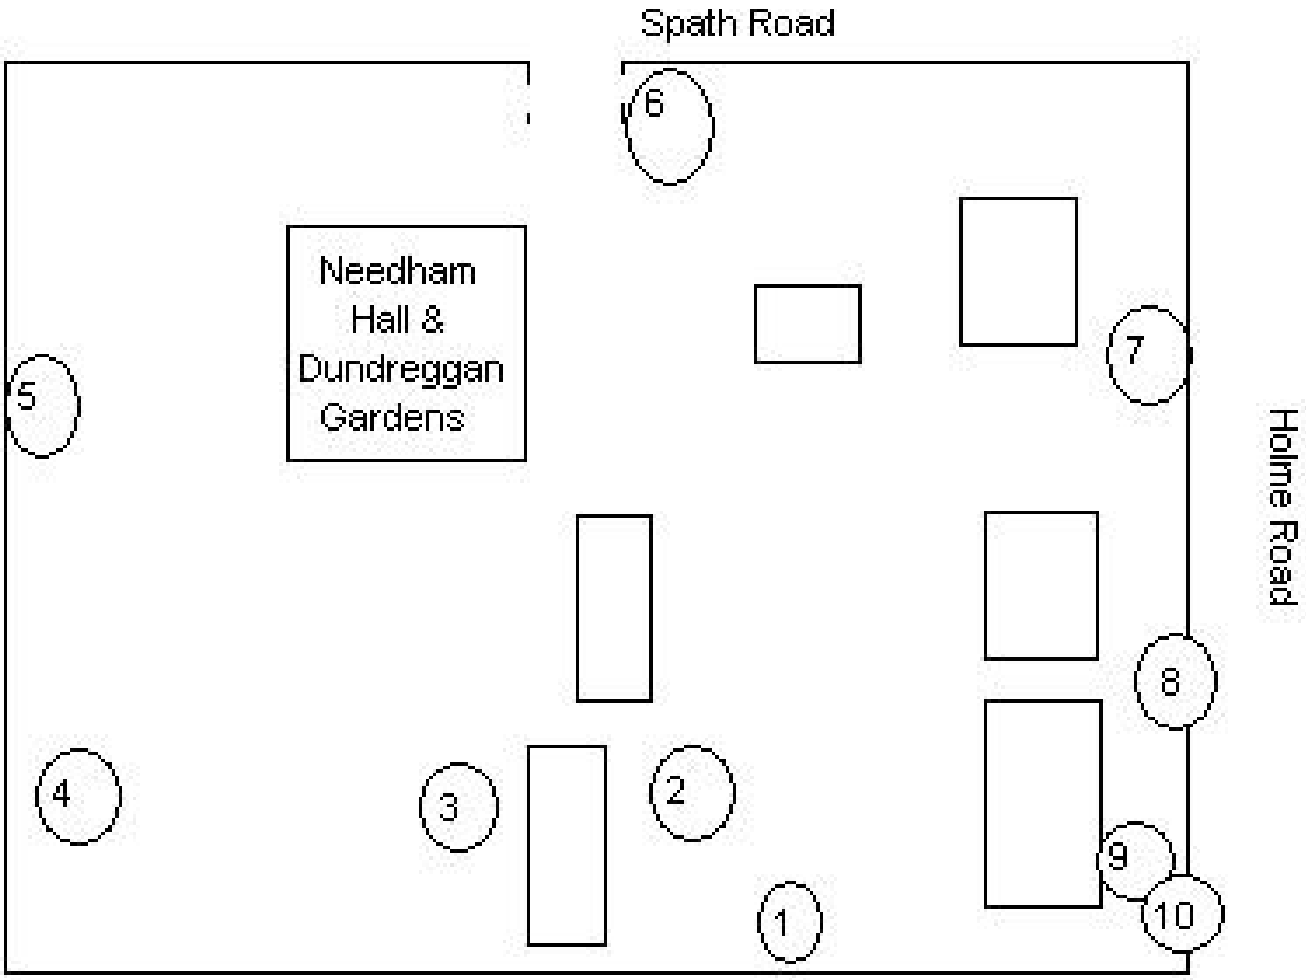
Ford 25809



Proposed tree work:

1 Laburnum (dead) - Fell

2 Lime - Reduce to give 2 to 3m building clearance

3 Yew - Reduce to give 2 to 3m building clearance

4 Oak (dying) - Remove crown leaving standing stem

5 Chestnut (small tree with large branch failure) - Fell

6 Sycamore (dying) - Fell

7 Sycamore - Remove dead sections

8 Beech - Crown lift by removal of several lowest branches, remove large, vertical, squirrel damaged branch, reduce high overhang by approximately 2m and thin remainder of crown by approximately 20%

9 Beech - Reduce low crown overhang on property side by approximately 2m & sever Ivy

10 Copper Beech - Remove major dead wood and crown lift to approximately 6m
