|---|---|
| 1. | **Number of bins proposed?**<br>- Please provide details of the number of bins proposed and how this was calculated. |
| | 2 x 240 l wheeled bins, based upon the idea there will be little waste of food products as this will be cooked on demand basis only. main disposal will be of packaging of goods only. |
| 2. | **Bin storage area**<br>- Please include a plan of the proposed bin storage area, showing the bins that are proposed and the proposed collection point.<br>- Please describe how occupants will transfer waste to the bin store and the distance travelled in doing so. |
| | bins will be stored internally as are the bins for all the other shops in the same row. furthest travel distance is probably 10m. ~~for~~ |
| 3. | **Bin collection arrangements**<br>- Please describe the bin collection area, including how and where bins will be moved to in order to reach the collection vehicle.<br>- Please include plans showing how the collection vehicle will travel around the site. |
| | as can be seen on the plan provided the shop is part of block that has a lockable Court yard. Once a week the bin men comes into the Courtyard and emties the bins. This client will have to live as the rest of the occupants in the Block. |
