Bridle path onto meadows

Key

A1, A2, A5 } Self seeded Sycamores - outgrowing garden roots cracking path. Want removing - Replace with low growing shrubs.

PLANNING AND BUILDING CONTROL
23 JAN 2013

A3, A4 } Hawthorns - Crowns reducing please

A6 to A9. - Hawthorns on football ground - crown reduced as producing too much shade on veg plot. Have been reduced before

A10 to A22 - Self Seeded Sycamores on football ground. These have been cut down before & have regrown. They are casting too much shadow over veg plot - limiting light + veg growth.
Mr Turley is in agreement.
Re-plant with low growing evergreen shrubs

except A18 + A20 } Hawthorns - crown reducing

A23 - Self seeded Sycamore on Bridle path - my land - which is inhibiting the growth new hedge - I would like this removed.
