

Paterson Redevelopment Project – Planning Condition 16 Submission

Please find enclosed the below items in relation to planning condition 16 which states; *“Fumes, vapours and odours shall be extracted and discharged from the building in accordance with a scheme to be submitted to and approved in writing by the City Council as local planning authority before the use commences; any works approved shall be implemented before the use commences.”*

- Strobic Fan RDD Submission for extraction of fumes / vapours removed from BRU and Fume Extract system, details of contents supplied by client, showing both technical data (inclusive of stack height) and ductwork configuration at Level 9.
- Toilet extract Fan technical submission for extraction of odours from WC space.
- Level 8 plantroom layout showing toilet extract exhaust location.

This information is issued in order to satisfy the request for the discharge scheme to be submitted for approval in writing by the local City Council.

For and on behalf of Imtech Engineering Services
