Dear Sir/Madam,

Re: Erection of single storey

We've recently submitted a planning application for a single storey extension. This will include a bathroom and a bedroom.

The reason for this is due to my father being disabled and having suffered from stroke finds mobility a challenge. He finds it extremely difficult to climb a flight of stair plus needs instant access to a bathroom, due to a medical condition. We have a paid career who visits twice a day to support my mother, who now finds it very difficult to assist my father. The extension will be a great relief to us all and will improve the quality of life for my parents, especially my father.

The proposed extension to the property (43 East Grove) encroaches onto the boundary of 45 East Grove which is owned by Mosscare. I believe we need permission from you to proceed with the extension. For reference, I enclose a letter received from Manchester City Council on the matter.

I look forward to hearing from you soon

Yours faithfully,

Nadeem Akram
