Innox Max Canopy - 1200mm Wide

- Italian manufactured
- Supplied Fully assembled
- Electronically spot welded single piece hood
- AISI430 - Stainless steel structure
- Stocked in two depths, 900mm and 1100mm
- Scotch-brite finish
- Hermetically sealed grease drip channel with drain valves
- 18/10 Stainless steel labyrinth filters (Baffle Filters) – Easily removed for cleaning
- Includes light (IP65), speed controller and motor as standard
- The speed controller has a facility to connect with a Gas Interlock system as standard
- The cut out is on the roof as standard, but you can also vent from the rear by rotating the motor 90 degrees and blank plating the top using a cut out from the rear
- We suggest that the ducting is a minimum of 300mm
