Notes
The following strategy should be prepared using the guidance document available from:

http://www.manchester.gov.uk/site/scripts/documents.php?categoryID=10006develop.him

1.	**Number of bins proposed?** - Please provide details of the number of bins proposed and how this was calculated.
	6 No per Unit for segregated waste
2.	**Bin storage area** - Please include a plan of the proposed bin storage area, showing the bins that are proposed and the proposed collection point. - Please describe how occupants will transfer waste to the bin store and the distance travelled in doing so.
	Manchester Council approved subcontract will drive into service yard + back-up to main service entrance for Bins to be transfered to vehicle. Tenant fill the bins within the unit
3.	**Bin collection arrangements** - Please describe the bin collection area, including how and where bins will be moved to in order to reach the collection vehicle. - Please include plans showing how the collection vehicle will travel around the site.
	as above Spoke to Waste management section – too premature to discuss the matter until a tenant + his business is identified.
