BLAZE

BLAZE NEON LTD

DESIGN STATEMENT

IN RESPECT OF SIGNAGE FOR RBS – 38 MOSLEY STREET, MANCHESTER, M2 3AZ

We consider that the signage proposed at the above site is not detrimental to this Listed Building because of the following reasons: -

- New design corporate image signage
- Stainless steel panels have been shown, which is normally the preferred material when branding sensitive buildings
- It is not bulky, unsympathetic or unsightly to the building

All in all, we feel that this sign would not alter the character of the building or damage its appearance in any way and we do not see any reason why our application cannot be granted consent.
