PLANNING
2008

Church of the Nazarene, Wendover Road, Brooklands, Manchester 23

Design and access statement: Phase 3 Extension

The purpose of the extension is to provide improved toilet facilities, improved access to all areas and improved circulation within the Church

The new location of the toilets will enable people in any of the functional spaces within the building to access the toilets without disturbing people in other functional spaces

The extension is designed to match the existing building generally but to highlight the main entrance by providing contrasting brickwork in this location

Vehicular and pedestrian access from the road is not changed by any aspect of this application
