Paul Broadhurst [p.broadhurst@manchester.gov.uk]

Jenny

Following our meeting this afternoon I can confirm that no permission/agreements are required from the Highways Department should you proceed to build your extension as all building works are within the private boundary of your property, what you will need to consider is during the building of the extension you will have to apply to the Highways Department should you wish to make any connections within the public highway or erecting a scaffold on the highway.

Regards

Paul Broadhurst - Highways Officer
