High Rise Apartment Developments

	Yes/No - how much space has been provided?
0.43m ² has been provided per apartment for the container space. Space to manoeuvre and access containers individually has also been provided so that each container can be accessed and removed for collection individually.	0.43m ² x 54 no. apartments = 23.33m ² Two bin stores, each measuring approximately 17m ² (a total of approximately 34m ²) will be provided as indicated on the proposed site plan. Both bin stores are sized to provide adequate circulation space and are located close to pedestrian gates in the boundary fence to minimise the travel distance for collection.

Proposed site plan	0622-P3A-XX-XX-DR-A-SK022
Proposed bin stores	0622-P3A-XX-XX-DR-A-SK040

Ensure all bins in the store are accessible	☒
Ensure recycling facilities are as easy to access as general refuse	☒

Please confirm details of waste store ventilation and hygiene / cleaning proposals

Ventilation -	The proposed bin stores are naturally ventilated, consisting of a concrete slab screened by a close boarded timber fence.
Hygiene -	The bin stores are designed to be easily swept and hosed down as required. The management company will be responsible for keeping bins and bin stores clean and safe, arranging for replacement bins when necessary.

Please provide details of who will be responsible for placing the bins at the collection point and returning them to the store / property promptly e.g. resident / management company

All bins will be collected directly from the bin stores by the council's waste collection service on allocated days. The waste collectors will be given access to the security gates entry codes / keys.
