Proposed Cricket Nets Outline Specfication

1. The proposal is for 2 No practice cricket nets. Consisting of synthetic artificial playing surface with a complete netting system to prevent balls leaving the practice lanes.

2. Proposed construction both surface and base structure to be approved by the England and Wales Cricket Board.

3. The Contractor to visit the site prior to the submission of the quotation in order to ascertain the condition of the existing surface and the works required to prepare the ground to receive the new construction.

4. Overall dimensions of the proposed practice nets 33.5M x 8M wide. Area to be surfaced with synthetic artificial turf.

5. Each lane is to have individual bowling and batting pads
Batting 11M x 5.6M wide
Bowling 8M x 5.6M wide

6. Netting cage to have heavy-duty tubular steel frames and netting (green) securely fixed to the sides and a complete roof to prevent balls leaving the practice lanes.
32m x 7.32m wide x 3.6m high

7. The contractor is to supply a full specification of their proposals with the quotation and confirm that the completed facility will be fit for purpose.
