GA Risk Hazards Schedule				
Health & Safety Risk Reference	Risk Reference Number	Health & Safety Description Risk	Health & Safety Mitigating Action	Health & Safety Risk Level
1	01	Material handling equipment (MHE) - Forklift trucks used in the car park area.	Procedures for safe use of MHE, including training and supervision. MHE must be used in designated areas.	Low
2	02	Slips, trips and falls (STF) - Wet floors in the car park area.	Regular cleaning and maintenance of floors. Warning signs and barriers to be used in high-risk areas.	Low
3	03	Fire - Fire in the car park area.	Fire risk assessment and fire safety measures, including fire extinguishers and fire alarms.	Low
4	04	Asbestos - Asbestos in the car park area.	Asbestos survey and management plan. Asbestos must be removed or encapsulated.	Low
5	05	Structural - Structural failure of the car park area.	Structural assessment and maintenance. Structural repairs must be carried out as soon as possible.	Low
6	06	Crushing - Crushing of vehicles in the car park area.	Procedures for safe use of the car park area, including warning signs and barriers.	Low
7	07	Collisions - Collisions between vehicles in the car park area.	Procedures for safe use of the car park area, including warning signs and barriers.	Low
8	08	Overhead - Overhead cables in the car park area.	Procedures for safe use of the car park area, including warning signs and barriers.	Low
9	09	Electricity - Electricity in the car park area.	Procedures for safe use of the car park area, including warning signs and barriers.	Low
10	10	Gas - Gas in the car park area.	Procedures for safe use of the car park area, including warning signs and barriers.	Low
11	11	Water - Water in the car park area.	Procedures for safe use of the car park area, including warning signs and barriers.	Low
12	12	Weather - Weather in the car park area.	Procedures for safe use of the car park area, including warning signs and barriers.	Low
13	13	Security - Security in the car park area.	Security assessment and measures, including security guards and CCTV.	Low
14	14	Access - Access to the car park area.	Access control measures, including security guards and barriers.	Low
15	15	Signage - Signage in the car park area.	Signage assessment and measures, including warning signs and barriers.	Low
16	16	Lighting - Lighting in the car park area.	Lighting assessment and measures, including lighting fixtures and controls.	Low
17	17	Sound - Sound in the car park area.	Sound assessment and measures, including sound barriers and controls.	Low
18	18	Vibration - Vibration in the car park area.	Vibration assessment and measures, including vibration barriers and controls.	Low
19	19	Other - Other risks in the car park area.	Other risk assessment and measures, including warning signs and barriers.	Low

GA Risk Hazards Schedule				
Health & Safety Risk Reference	Risk Reference Number	Health & Safety Description Risk	Health & Safety Mitigating Action	Health & Safety Risk Level
20	20	Fire - Fire in the car park area.	Fire risk assessment and fire safety measures, including fire extinguishers and fire alarms.	Low
21	21	Slips, trips and falls (STF) - Wet floors in the car park area.	Regular cleaning and maintenance of floors. Warning signs and barriers to be used in high-risk areas.	Low
22	22	Fire - Fire in the car park area.	Fire risk assessment and fire safety measures, including fire extinguishers and fire alarms.	Low
23	23	Slips, trips and falls (STF) - Wet floors in the car park area.	Regular cleaning and maintenance of floors. Warning signs and barriers to be used in high-risk areas.	Low
24	24	Fire - Fire in the car park area.	Fire risk assessment and fire safety measures, including fire extinguishers and fire alarms.	Low
25	25	Slips, trips and falls (STF) - Wet floors in the car park area.	Regular cleaning and maintenance of floors. Warning signs and barriers to be used in high-risk areas.	Low
26	26	Fire - Fire in the car park area.	Fire risk assessment and fire safety measures, including fire extinguishers and fire alarms.	Low
27	27	Slips, trips and falls (STF) - Wet floors in the car park area.	Regular cleaning and maintenance of floors. Warning signs and barriers to be used in high-risk areas.	Low
28	28	Fire - Fire in the car park area.	Fire risk assessment and fire safety measures, including fire extinguishers and fire alarms.	Low
29	29	Slips, trips and falls (STF) - Wet floors in the car park area.	Regular cleaning and maintenance of floors. Warning signs and barriers to be used in high-risk areas.	Low
30	30	Fire - Fire in the car park area.	Fire risk assessment and fire safety measures, including fire extinguishers and fire alarms.	Low
31	31	Slips, trips and falls (STF) - Wet floors in the car park area.	Regular cleaning and maintenance of floors. Warning signs and barriers to be used in high-risk areas.	Low
32	32	Fire - Fire in the car park area.	Fire risk assessment and fire safety measures, including fire extinguishers and fire alarms.	Low
33	33	Slips, trips and falls (STF) - Wet floors in the car park area.	Regular cleaning and maintenance of floors. Warning signs and barriers to be used in high-risk areas.	Low
34	34	Fire - Fire in the car park area.	Fire risk assessment and fire safety measures, including fire extinguishers and fire alarms.	Low
35	35	Slips, trips and falls (STF) - Wet floors in the car park area.	Regular cleaning and maintenance of floors. Warning signs and barriers to be used in high-risk areas.	Low
36	36	Fire - Fire in the car park area.	Fire risk assessment and fire safety measures, including fire extinguishers and fire alarms.	Low
37	37	Slips, trips and falls (STF) - Wet floors in the car park area.	Regular cleaning and maintenance of floors. Warning signs and barriers to be used in high-risk areas.	Low
38	38	Fire - Fire in the car park area.	Fire risk assessment and fire safety measures, including fire extinguishers and fire alarms.	Low
39	39	Slips, trips and falls (STF) - Wet floors in the car park area.	Regular cleaning and maintenance of floors. Warning signs and barriers to be used in high-risk areas.	Low
40	40	Fire - Fire in the car park area.	Fire risk assessment and fire safety measures, including fire extinguishers and fire alarms.	Low

NOTES
All dimensions and work to be checked on site.
Any discrepancies are to be reported to the Architect before any work commences.
This drawing shall not be used to ascertain any dimensions, work to be checked on site.
This drawing shall not be reproduced without express written permission from AFL Architects LLP.
DISCLAIMER
When this drawing is issued to the Client, it is an uncontracted version issued for information only, to enable the recipient to proceed with their own documents/drawings for which they are solely responsible.
SOFTWARE INTEROPERABILITY
AFL prepared this drawing using Autodesk Revit Architecture.
AFL does not accept liability for any loss or degradation of any information held in the drawing resulting from the translation from the original file format to any other file format or from the recipient's reading of it in any other programme.

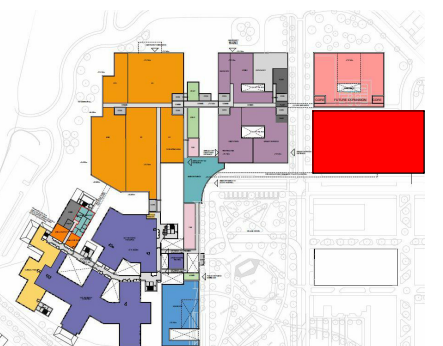

THIS DRAWING IS BASED ON THE FOLLOWING MODELS		
Model	By	Issued on
Structural	CLT/MS	
MEP	XXX	
Landscape	GEL/SPES	

General Notes:
1. Refer to Specification document 20200-AFL-MSCP-XX-SP-A-0900
2. Refer to 200 Series drawings for all General Arrangement information, setting out and levels information.
3. Refer to 211 Series drawings for all External Wall Information.
4. Refer to 222 Series drawings for Internal Wall Information.
5. Refer to 233 Series drawings for Floor Construction Information.
6. Refer to 311 Series drawings for External Doors / Windows Information.
7. Refer to 322 Series drawings for Internal Doors / Windows Information.
8. Refer to 333 Series drawings for Suspended Ceilings Information.
9. Refer to 477 Series drawings for Roof Finishes Information.
10. Refer to 487 Series drawings for Fire Strategy Information.
11. Design of floors, the drawings and specification prepared by the architect are to indicate design intent only and to co-ordinate the works package into the overall design. The sub-contractor is responsible for the detailed design of the works and should issue details to the Architect for comment prior to commencement of fabrication or installation of those works on site.
12. All construction must conform to relevant British Standards and Building Regulations.
13. Any structure shown on this drawing is indicative only. Sub-contractor must refer to Structural Engineers drawings for full coordination.
14. The content of this drawing is for design intent and requires further design coordination with all relevant consultants, sub-contractors, specialist designers and statutory authorities.

Section Materials Key

X - Anti-climb Safety Return Barrier at high level (Subject to VE)
Y - Vehicular barrier (to be provided along all slab edges behind face, along ramps, ramp voids, and base of blockwork walls)
RT-01 - Roof to all staircases, lift over-run & risers
RT-03 - Entrance Canopy with Green Sedum Roof - Fascia Board to match Curtainwall
R.00.XX Room Level UniqueReference#
L.ZZ.XX Lift Atrium Level UniqueReference#
