7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).
Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.
E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

I would like to trim two hawthorne trees forming the bounbary of the garden at the front of the house. I would like to reduce their height by about 3 metres (photo attached). At the rear I would like to prune a cherry tree which is overhanging our house and next door property. I would like to trim a hawthorne at the bottom of the garden, reducing its height by about half its current height. Finally I would like to remove one branch from a rowan tree at the bottom of the garden. The branch overhangs the lower part of the garden, impacting on the light available and creating a large amount of bird waste from birds perching in the branches. This is an issue as our granddaughter plays on the artificial lawn at the bottom and there is a large amount of bird faeces in this area.

8. Trees - Additional Information

For all trees
A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes).
It would also be helpful if you provided details of any advice given on site by an LPA officer.
