Securi Mesh

Specifications and Technical Data

Securimesh (358 mesh) high security fencing panels offer a significant degree of strength and versatility for high security perimeter protection. These fencing panels are popular in applications including prisons, border fences, boundary fencing for military sites, secure compounds, educational establishments and recreation facilities. Securimesh is normally available in panel widths up to 2515m, with 76.2 x 12.7mm mesh (3" x 1/2"). Panel heights extend up to 6000mm (20'), in multiples of 12.7mm (1/2").
