Details of the pre-application advice received

AM agreed in principle that the proposed location of the sign above the main door to the Museum is the most appropriate position. AM requested that the sign is flush with the building elevation. AM agreed that an anodized aluminium sign coloured to match the surrounding metalwork was appropriate in the context of the listed building. AM requested that the signage application be submitted separate from the variation to condition application which has already been approved.

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
