

This architectural drawing depicts a building facade, oriented horizontally. The central portion of the drawing shows a multi-story structure with a gabled roof. The gable end features a series of vertical elements, possibly windows or decorative panels, and is topped with a small, ornate finial. To the right of this central section is a smaller, rectangular structure with a flat roof. The drawing uses fine lines to represent structural details and includes some shading to indicate depth and form. The overall style is that of a technical architectural sketch.

The image displays architectural drawings of a building facade. The top portion shows a perspective view of a building with a gabled roof and a central entrance. The facade features a series of windows and a central entrance with a pediment. The bottom portion shows a section view of the building, illustrating the internal structure and the placement of windows and doors. The drawings are rendered in black lines on a white background, with some areas highlighted in yellow.

This is a detailed architectural drawing of a building facade, oriented vertically. The drawing shows a long, multi-story structure with a central entrance and a series of windows. The central entrance features a prominent pediment supported by columns. To the left of the entrance, there is a series of windows, and to the right, there is a series of windows. The drawing is oriented vertically on the page.
