We would request that you look again at the option you have identified, we remain concerned about tree loss and impacts on residential amenity. If you were to pursue this option any planning application would need to be accompanied by detailed proposals to mitigate tree loss and also a demonstration that the impacts of the car parking immediately adjacent private garden spaces could be mitigated.

In addition any planning application would need to be accompanied by a full tree survey, ecology survey and biodiversity net gain report.

- (a) a member of staff**
- (b) an elected member**

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
