A/C No. QUOTE

Dear Richard **Blackley Crematorium**

**We thank you for your enquiry and have pleasure in quoting as follows:**

| Description | Unit Price £ | Total £ |
|---|---|---|
| To prepare final drawings and tooling based on current design construction from your dimensions. Cost - £1200.00 | 1,200.0000 | 1,200.00 |
| To fabricate 1 Off Roof Cover assembly with main structure consisting of 3.5mm GRP in Class 1 fire retardent polyester, covered with external black grade gel coat. The top clear dome window constructed from 10mm thick acrylic with final dimensions to be confirmed after survey - £6270.00 | 6,270.0000 | 6,270.00 |
| Further quantities - prices to be confirmed after site visit. | | |

Estimated Completion To be Confirmed
Payment Terms TBC
VAT Extra @ 20%

Yours sincerely,

**Charles Woolff**

Information Specific to Domes
Please note that the diameter on our domes have a tolerance of +/- 1% on domes up to 500mm and +/-1.5% on domes 501mm+ diameter. If you need a specific size, please make this clear to us this so we can advise accordingly.

Please also note that due to shrinkage, if you are joining 2 domes together to form a sphere, we need to know this BEFORE production as there are visual aspects that you will need to be made aware of.

A standard dome will thin out at the apex by approx 65%. It will be thickest at the point closest to the flange

**NB. If you have any questions at all regarding this quote including the delivery date, please call us.**
