Date Received: 29 March 2022

REGISTER ?

YES

NO

From which date is the application valid?

7th April 2022

Please ensure you have completed the EIA questions within Uniform

Title/Description – please make any required changes in Uniform

City Council Development - It is proposed to install Solar Photovoltaic Carports over the front and rear car parks at the National Cycling Centre, one of Manchester City Council's highest, energy consuming buildings. The work will support the Authority in its ambitions to become a Zero Carbon city by 2038, reducing the carbon emissions, associated with the operation of the building through the provision of on site renewable electricity generation., The proposed size of the Solar PV installation is between 772 kWp and 915 kWp and will deliver carbon savings of circa 240 tCO2 per annum.

Consults Identified?
