

# HERITAGE CASEMENT WINDOW

3 DETAIL TRICKLE VENT  
HERITAGE CASEMENT WINDOW 1:2

|                     |                                                                                                                                                                                                             |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Material            | Manufactured in selected engineered laminated pine or hardwood, sourced from sustainable and managed forestry (FSC or PFEC certified)                                                                       |
| Mechanism           | Sashes are hung on cords or chains, operating over pulleys and counter balanced with lead weights                                                                                                           |
| Weatherseal         | The window is fully weather sealed to BS EN 6375-1 2009                                                                                                                                                     |
| Glazing             | Windows are glazed using Slim sealed units and traditionally sealed externally using a white glazing compound. Other RAL colours of glazing compound may be available at additional surcharge               |
| Glass               | Slim dual sealed units complying with BS EN 1279 parts 1-6 up to 14mm thickness typically achieving a whole window Acoustic value up to 36dB noise reduction. Outer glass pane to be of a conservation type |
| Thermal Performance | Thermal performance is calculated by the standards of EN ISO 10077-1:2006 and typically this window achieves a U-value of 1.6 W/m²K or better                                                               |
| Glazing Bars        | Solid traditional framed glazing bars with individual glass units                                                                                                                                           |
| Cills               | Manufactured in Hardwood with options of cill projections.                                                                                                                                                  |
| Fittings            | A lockable Fitch fastener and two finger pulls to the bottom sash with options in colour and finish.                                                                                                        |
| Ventilation         | A controllable trickle ventilator can be fitted to the window dependant on width of frame                                                                                                                   |
| Restrictors         | Restrictors which allows the opening of the sash to be restricted to 100mm is an option                                                                                                                     |
| Factory Finishing   | To ensure the smooth operation and optimum performance of the window, we apply 3 coats of sprayed applied microporous water based paint system                                                              |
