Part 1 – Particulars of the application/development

Proposal: Roof alteration to create second floor to provide additional accommodation associated with existing dental surgery

Location: 301 Moston Lane, Manchester, M40 9NL

Date of application: 15 October 2021

Application number: 130520/FO/2021

Part 2 – Particulars of decision

Manchester City Council gives notice that the development referred to in Part 1 has been **Refused** in accordance with the application and plans submitted for the reason(s) listed below.

Article 35 Declaration

In this instance it was not considered possible to negotiate an appropriate solution that was acceptable to the Local Planning Authority, as the nature of the proposal was considered to be fundamentally unacceptable due to the inadequate level of dedicated car parking and amenity space provided, the standard of accommodation proposed, the means of access proposed and the waste management arrangements, and resulting impacts that this would have

Reason(s) for decision

1) The proposed roof extension and resultant increase in floorspace and occupancy would result in harmful levels of activity. The associated increase in noise and disturbance arising from the intensification of use would result in unacceptable harm to the amenity of neighbouring residential occupiers, contrary to policies SP1 and DM1 of the Manchester Core Strategy (2012), saved policy DC26 of the Unitary Development Plan (1995) and the National Planning Policy Framework (2021).

2) The proposed roof extension by reason of its height, mass and flat roof design, would result in a bulky, overly dominant feature, out of character with the appearance of the street-scene. This in turn would have a harmful impact to visual amenity, contrary to the policies SP1, EN1 and DM1 of the Manchester Core Strategy, saved policy DC1 of the Unitary Development Plan for the City Of Manchester, the Guide to Development in Manchester (SPD) and the National Planning Policy Framework (2021)

3) The proposed development fails to provide sufficient arrangements for parking of vehicles within the curtilage of the premises. The additional parking demand to be generated, in an area that suffers a high demand for parking, would exacerbate on-street parking difficulties and localised traffic congestion, to the detriment of highway safety and the amenity of neighbouring business premises. As such, the proposal is contrary to policies DM1, T2 and SP1 of the Manchester Core Strategy and the National Planning Policy Framework (NPPF).
