Informatives

Building Regulations 2010

This permission does not grant approval under Building Regulations.

Street Naming & Numbering Requirements

Manchester City Council is responsible for allocating street naming and numbering within Manchester for new developments or property conversions. Individuals or businesses are not permitted to allocate their own property numbers, building or street names.

If your development includes the creation of new dwellings (either new build or conversion of existing buildings), creation of new commercial properties or the subdivision of existing properties you must ensure that you request new or changes to addresses through us so they can be officially allocated and registered in accordance with the Public Health Act 1925 Sections 17-19 & Greater Manchester Act 1981 Section 22.

Failure to do this may result in difficulties for the developer/occupier when requiring services such as connections to utilities, phone lines and postal services and may delay your development.

Mining Information

The proposed development lies within an area which could be subject to current coal mining or hazards resulting from past coal mining. Please read the Standing Advice from the Coal Authority in Appendix A.

An acoustic report has been submitted with the application which states that the proposed new equipment will not be used outside of the hours 0630-2200. The applicant must ensure that the equipment is not in use beyond these hours and if the intention is to have the equipment in use overnight then an additional assessment will be required. The acoustic report suggests that noise levels will not meet the above criteria at the nearby Geoffrey Manton building, can the noise at this location be mitigated further in some way? The applicant will need to provide further comment on this.
