Main Sectors of Operation: Residential and commercial projects, including new build, refurbishment and remedial works.

Qualified Experts In: The design and installation of Waterproofing systems to protect underground and deck structures from water ingress and damage.

Contact: Gary Briscoe, Managing Director; Steve Williams, Technical Director.

Protectahome Limited provides specialist structural waterproofing design and installation services. Our clients range across both the private and public sectors and we undertake a varied range of new build and remedial projects on both domestic and commercial properties. Having been established for over 38 years, we have earned an enviable reputation as experienced specialists in our chosen field. Our highly qualified team of surveyors and technicians boast over 300 years of combined service, accumulating and sharing invaluable experience between them.

We are fully conversant with BS8102, the British Standards Institute Code of Practice for the protection of below ground structures against water from the ground. Our specialist team have significant expertise in the design and installation of Type A, B, C and combined waterproofing systems, many of which are backed by our 10 Year Guarantee. We have undertaken specialist consultancy with some of the UK's largest warranty providers significantly contributing to the creation of new technical standards.

Our experienced team of surveying specialists have (but not limited to) the following qualifications:

- Certificated Surveyor in Structural Waterproofing (CSSW)
- Certificated Remedial Damp Surveyor (CRDS)
- Certificated Surveyor in Remedial Treatments (CSRT)
- Certified Timber Infestation Surveyors (CTIS)
- Site Management Safety Training Scheme (SMSTS)

Head Office Registered Address: Usk House, Priory Drive, Langstone Business Park, Newport, NP18 2LH

Commitment to Quality:

At Protectahome, we maintain the upmost focus towards providing the highest quality of solution in all aspects of our service. Our policies and procedures in place ensure that every care is given to each aspect of the design and installation of our waterproofing systems. Protectahome has full accreditation, since 1986, to BS EN ISO 9001:2015 — audited by the British Standards Institution themselves.

Health and Safety Policy:

Protectahome ensure that the health, safety and welfare of each of our employees, clients, customers, visitors and other personnel involved in our operations is given the highest priority. We manage our business and projects in such a way that individuals and organisations are not exposed to unacceptable risks.

Continuous Improvement Policy:

We have documented systems for the co-operation between clients, management and subcontractors to encourage the continual development and improvement of our quality, health, safety and environmental systems - including a client feedback system that recorded 97% positive client feedback during the last 12 months.

Liability Insurance:

Protectahome's commitment to public safety and high professional standards is reflected in the levels of liability insurance we take out. They are as follows:

Public and Employers Liability: £10,000,000.00

Professional Indemnity: £5,000,000.00

Product Guarantee and Financial Loss: £500,000.00

Contractors All Risks: £450,000.00

Company Reg: 1476443, CITB No: 4370831

UTR: 15750 03814, VAT No: 927 5207 19
