

311 - 313 Wilmslow Road, Manchester, M14 6NW - Rev B

Refuse Strategy

The development is situated at 311-313 Wilmslow Road, Manchester, M14 6NW, the rear courtyard is accessed from Carill Drive and the refuse area is secured via a key coded gate lock.

The area below is where the bins are located within the development; Green area are where the residential bins are stored; the yellow area is where the commercial bins are stored; Blue area is the collection point.

The bins are removed by the buildings management companies and stored in the alleyway until collection. Once collection has been carried out the bins will be returned to the bin store.

Residential Bins

The number of bins required is based on 110 litres per household per week for general waste and 55 litres per household per week.

Bins are provided for all tenants to use and these are emptied once per week via the waste management company (yet to be confirmed).

Total bins on site of the residential scheme:

- 4 x 240L General Waste
- 4 x 240L Pulpable Recycling
- 4 x 240L Mixed Recycling

4 x 23L Food Caddy's to be provided to each resident

All bins are potentially to be emptied on Monday and Friday.

Commercial Bins

The ground floor commercial tenant has provided the below table for its collection strategy.

General 1100L	Recycling 1100L	Glass 240L
Monday	Monday	Monday
Wednesday	Wednesday	Thursday
Friday	Friday	
Saturday		

Total bins on site:

1 x 1100L General Waste eurobin
1x 1100L Recycling eurobin
1 x 660L Food Waste
1 x 240L Glass bin

The management of the commercial unit will ensure the bins are placed in the mouth of the alleyway to the rear to the premises on collection days and are returned into the rear yard (yellow area above) the same day.
