To: Planning <Planning@manchester.gov.uk>

Hi,

can we close 132290/TCA and create a new tree notification file on Unfirm with existing documents from this file and additional information in email below revising the specification of works.

Hope makes sense. Let me know if need to discuss.

Thanks, John

Re: application no 132290/TCA/2021

Good morning John,

Yesterday I received the acknowledgment letter regards to the above application of notification of intent to carry out works to trees, with your name as a contact.

I did send a further email to planning but I'm not sure if you will have got that email. Essentially on my online form I stated that T3 was a Red Cedar and T5 was a Cypress. I had originally thought then to be leylandii/conifers, but when I checked with an identification app they appeared as listed. However, I was correct with my original thoughts, they are both conifers, I think planted originally as a hedge but allowed to grow uncontrolled, and now they are higher than the house, this was confirmed by Nick Bailey Tree Surgeons when they visited me on 24th November.

They also advised that the Yew can be thinned and cause less shade and overhang to the road, which I would much prefer rather than removing. I intend to make that side of the garden a mixed hedge and the Yew will look beautiful as part of it.

I look forward to hearing from you.

Best wishes,

Clare
