Subject: Anita Street & Victoria Square

Hi All

A few notes re next steps, these can be added to where I have missed anything.

Anita Street

I have checked on land registry and the following addresses on Anita Street are leaseholders. I am checking with the RtB team to see if they have received any applications.

No's - 7, 11, 13, 14, 15, 16, 17, 20, 21, 23, 24, 25, 27, 29, 31

Sarah - do you have floor plans for Anita Street?

Michael - to provide proposals, highlighting the principles discussed and agreed today.

Jennifer - will review and provide a planning letter to consent to the principles. Can you send me the letter too, I will provide legal with a copy to attach to the wayleave.

Note - need to notify highways re Yellowstone

Victoria Square

- Agreed the cabinet to be bolted to the floor rather than the wall
- Agreed the cable to go through an existing route - doorframe (2nd phase/if resident wants to be connected)
- Michael to provide dimensions and photos of the cabinet
- Planning consent is needed due to 2 x cabinets. Agreed to include all in one submission. Jennifer/Katie - can you send Michael the link to the form (I'm not sure I have the right link)
- Comms - I understand there is a resident's group which we can update. Katie has provided me with the contact details so I will sort that. Michael will draft letters to resident in advance of any planned works

Thank for meeting today, it was useful to see and gain a better understanding of the work.

Kind Regards

Jemma Turner
