Insulated Panel Systems

Our architectural wall panels range is available in 9 profiles and designed to challenge perceptions of building with panels. The architectural wall panels solution can be installed both vertically and horizontally and available in a wide range of colours for maximum visual impact.

- 9 distinct profiles - KS600-1000 MR, EB, MM, CX, WV, PL, TL, FL, FL-S
- Suitable both vertical and horizontal applications
- Available in Kingspan XL Forte and Kingspan Spectrum. [Download a copy of the coating selector here](#)
- Lengths from below 1.8m up to 17.5m
- Spanning capability - Longspan - up to 8.2m, frame to frame
- Cover width - from 600mm to 1000mm
- Factory supplied weather seal

Insulated Panel Systems

BS 8414 tested system

QuadCore architectural wall panels offer a BS 8414 tested solution that has passed the requirements of BR 135

Tested specification

Substrate: Lightweight steel frame

Insulation: 70mm Kingspan AWP QuadCore insulation core

Fire breaks / Cavity barriers: No cavity barriers used

Test Report BS 8414-2:2015 + A1:2017 - P107923-1000 [Download here](#)
Classification Report BR 135: 2013 Annex B - P107923-1001 - [Download here](#)
