Growth & Development

Delegated officer report for planning application

Application no. 132252/VO/2021

Date registered valid: 19 November 2021

Proposal: City Council Development for enabling works including tree and vegetation removal, creation of a temporary haul road and demolition of the Creamline Dairies buildings in association with the future delivery of the new Red Bank Neighbourhood.

Address: Former Creamline Dairies Site, Red Bank And Section Of Former Railway, Manchester, M4 4HF

Ward(s): Cheetham Ward

Applicant: Manchester City Council C/o Agent

Agent (if any): Mr Ed Harvey Avison Young Norfolk House, 7 Norfolk Street, Manchester, M2 1DW

Case officer: Jennifer Atkinson
Tel: 0161 234 4517
Email: jennifer.atkinson@manchester.gov.uk

Recommendation: Approve

Date of recommendation: 23 December 2021

Departure from Development Plan: No

Environmental Statement: RECV

Description of site/building

The application site is 2.83 hectares and is an irregular, thin parcel of land situated to the east of Red Bank. The site consists of a former railway line which once formed part of the East Lancashire Railway from Manchester Victoria to Bury. The line has been vacant since the 1850/60s. A mixture of trees and scrub are located within the former railway line together with areas of hardstanding which previously contained built development. The western area of the site south of Red Bank is currently occupied by the former Creamline Dairies site which comprises two vacant industrial buildings and associated hardstanding and boundary treatment. Access to this site is from Red Bank.

Immediately south of the former Creamline Dairies site there is a significant change in topography. An existing masonry retaining wall c. 5m in height is located between the former Creamline Dairies site and the former railway line to the south.

To the north-east of Creamline Dairies the site is characterised by naturally regenerated silver birch and willow trees.

Listed building: Not applicable

Conservation area:

Tree Preservation Order:

Description of area

To the east and south of the application site are areas of hardstanding, trees and vegetation beyond which is the Rover Irk. Residential uses located at the Green Quarter and industrial

uses associated with the Strangeways employment area are located to the north of the application site beyond Red Bank.

Description of development

City Council Development for enabling works including tree and vegetation removal, creation of a temporary haul road and demolition of the Creamline Dairies buildings in association with the future delivery of the new Red Bank Neighbourhood.

Consultations & Notification Responses

Local residents/public opinion – The proposal has been advertised as a major development, of public interest and containing an Environmental Impact Statement (EIA). A site notice has been displayed at the site together with a press notice in the local paper. Notification letters have also been sent to an extensive area of properties.

One letter has been received which states that they support the proposal and includes the comments that whilst they have no major objection to the demolition of Creamline Dairies and the subsequent construction of a temporary road to facilitate work, they would like confirmation that contractors will not be permitted to close Red Bank (even by one lane). The comments go on to state that archaeology should be studies at the site before its removed forever.

Highways Services advise that they have no objections subject to agreement of works related to highway and pedestrian management and a construction management plan.

Environmental Health advise that a construction management plan is agreed together with investigating below ground contamination.

Flood Risk Management Team advise that a surface water management scheme is agreed together with confirmation of the location of the culvert and protection during construction works. These should form part of the conditions of the planning approval.

Environment Agency advise that works will be limited to demolition and based on an understanding that any excavations would be limited to the upper soil surface of the development site for the creation of the temporary haul road (i.e. not involving an significant intrusive ground work). From the information submitted, the risk to controlled water can be appropriately managed through careful construction and surface water management. They also not that additional ground investigation would be required and remediation associated with future applications in Victoria Area. They require a condition that should any unexpected ground conditions be found that remediation is agreed. The method of surface water disposal should also be agreed by planning condition.

Greater Manchester Archaeology Advisory Service advise that a condition will be required to ensure that any below ground archaeology is investigated.

Greater Manchester Ecology Unit (GMEU) advise that they have no objections to the proposals and advise that the applicants have provided sufficient information to provide a high level of confidence that the habitat creation and repair required to compensate for the tree losses which the enabling works will cause will be delivered in future phases of the overall scheme, and that a significant overall net gain in biodiversity is likely to result from the wider scheme.

It is noted that the Ecological Enhancement Statement states that:

“in the event that the redevelopment of the residential led development [of the site] does not take place within a certain period of time of the completion of the Advanced Enabling Works, the land within the red line boundary for Application 1 will be restored in line with a strategy submitted for approval in writing by the City Council. The strategy will outline measures in order to ensure no biodiversity net loss and the restoration of the site shall take place in accordance with timescale agreed in writing with the City Council”

A suitable condition should be imposed in this regard.

The biodiversity net gain metric calculations provided as part of the current application should be regarded as indicative at this stage, because fully detailed design proposals for future land uses are not yet available. The metric calculations will need to be re-visited when more detailed plans for future development are available, and a full scheme(s) for delivering habitat compensation, and biodiversity net gain, including any proposals for off-setting biodiversity impacts, will need to be submitted to the Council for comment and approval as part of future applications.

Transport for Greater Manchester (metrolink) advise that they have no comment to make on this application.

Policy

Manchester Core Strategy (2012) relevant policies include SP1, EC1, H3, EN9, EN14, EN16, EN18 and DM1

Unitary Development Plan for the City of Manchester (1995) relevant saved policy DC26

Manchester Northern Gateway Strategic Regeneration Framework (2019)

Lower Irk Valley Neighbourhood Development Framework (2016)

North Manchester Strategic Regeneration Framework (2012)

National Planning Policy Framework (2021)

Issues

Principle

The application site is located in an area known as “Victoria North”. The Northern Gateway Strategic Regeneration Framework sets out the strategic objectives for this area and identifies 7 seven neighbourhoods where development activity will take place in order to deliver upon the vision for new homes, green spaces and infrastructure connecting the City Centre to Collyhurst.

The application site is located in the Red Bank Neighbourhood and this proposal represents one of the first projects in the delivery of this neighbourhood. In order to unlock the potential of this area, a programme of infrastructure investment has been secured to facilitate its development. Housing Investment Funding (HIF) has been secured to deliver the early critical phases of work in the Red Bank neighbourhood. This includes infrastructure and flood works.

The proposal which forms part of this planning application consists of distinct areas of which include:

- The demolition of Creamline Dairies including partial demolition of the c. 5m high retaining wall between the Dairies site and former railway line to the immediate south-east;
- Tree and shrub clearance to facilitate the construction of a temporary haul road; and,
- The construction of the temporary haul road.

These works are essential to unlocking the Red Bank neighbourhood and mark the initial phase of the HIF spending. The proposed works are therefore considered to be acceptable in principle as they mark a significant step in supporting the objections of the SRF and the ongoing regeneration of this part of Manchester city centre in order to deliver upon the economic growth, new homes and green infrastructure required.

Matters which require consideration are visual amenity, ecology, traffic and transport, surface water drainage, ground conditions, air quality. These matters will be considered below.

Visual amenity

The significant tree and vegetation removal and the loss of Creamline Dairies building would alter and change the character of the local area. The applicant has considered the effects of this within the Environmental Statement.

It is considered that the proposed tree removal in particular will alter an established band of tree coverage at the application which would have a material impact on the visual amenity and character of the area. The application site is however a development site within the SRF and its character is likely to change significantly as a result of this. The works associated with this application represent a transition for the application and it is anticipated that the future development would provide a high quality proposal in line with the SRF.

Residential amenity

There are residential properties which are in close proximity to the application site at the Green quarter. Residents may notice activities associated with construction which would be temporary in nature for the duration of the clearance, demolition and creation of the haul road. It is considered that these impacts can be suitably mitigated against through a construction management plan which should form part of the conditions of the planning approval.

Impact on trees

An arboricultural report has been submitted in respect of this planning application. This details the existing tree coverage at the application site and confirms that the trees at the application for part of the Manchester City of Trees Community Forest. The tree coverage has been characterised by a dense group of young to middle age self set silver birch and goat willow that are very compact with tall narrow forms. There are 1 individual tree (T1); and 8 groups of trees (G1-G8) were recorded within the site and comprise approximately 1,000 trees (around 1.05 hectares). The tree coverage has been characterised as low quality (category C) by virtue of their size or condition and their self set nature.

Almost half of the tree cover associated with the site, and in practical terms, everything within the working area required to construct the haul road would be removed. This would result in a net decrease in tree canopy within the community forest and therefore a negative impact of this asset and green infrastructure generally.

The proposal would have a harmful impact as a result of the loss of tree coverage, habitats and green infrastructure. It is considered that this harm can be suitably mitigated and is in the

interest of wider regeneration objectives for the area. The mitigation strategy is outlined in detail elsewhere within the report. The approach outlined in this regard has the support of GMEU as it would secure a 10% net gain in biodiversity across the Red Bank and increase the quality of the green infrastructure in the neighbourhood.

Impact on ecology

An ecological assessment has been prepared and forms part of the Environmental Statement. The assessment identifies the semi-natural woodland as the main ecological feature at the site, albeit with a low value, with two further ecological features being the potential for bat foraging/commuting and breeding birds.

The application site consists of a relatively young semi natural woodland which would be removed as part of the works. Greater Manchester Ecology Unit concur with the findings of the report and have confidence that the mitigation strategy included in the supporting documentation would provide the necessary mitigation for the green infrastructure that would be lost.

This strategy centres on 3 further phases of development which are due to take place in the Red Bank Neighbourhood. This includes a further phase of enabling works, flood alleviation works to the River Irk and a residential development which would see improvements made to St Catherine's wood.

It is essential that the ecological and biodiversity value of the 4 phases of development are fully understood and quantified and the applicant has committed to a 10% net biodiversity net gain across the four phases.

The mechanisms to secure the strategy including implementation and monitoring should be secured by planning condition.

In the event that the 3 further phases of development do not come forward, a planning condition should also be imposed that mitigation of the loss of green infrastructure at the application site only should be provided in the SRF area.

Traffic and transport

The proposal would involve the installation of a temporary haul road which would be 750 metres in length and constructed along the alignment of the old railway sidings. The road would be constructed of aggregate material, capping material and tarmac.

Highway Services have considered the proposal and requested further details on the dimensions of the road including width. In addition, the standard the road should be built to has also been requested and these details are to be agreed by planning condition. A construction management plan is also required.

Surface water drainage

The Environmental Statement includes a chapter on flood risk to inform any flood risk management issues. The application site is located in flood zone 1 where risks are considered to be low.

The assessment has considered the flood risk management measures during and after the demolition of Creamline Dairies buildings.

The application has been considered by the Environment Agency and Flood Risk Management who have raised no objection to the proposal subject to conditions which should ensure that appropriate surface water management is put in place and investigations in respect of the location of the underground culvert including its protection during construction works.

Ground conditions

A ground conditions report has been prepared to support this application. Environmental Health have considered the details and advise that further details on the remediation strategy for the site are required. This should form part of the conditions of the planning approval.

Air quality

The application site is not located in an air quality management area (AQMA). However, the AQMA is located in close proximity to the application along Cheetham Hill Road. It is noted that there are likely to be construction impacts on local air quality conditions which are likely to require mitigation. It is noted that there are sensitive receptors located near to the site including residential properties. Environmental Health require mitigation measures to be put in place to minimise the impact on local air quality during construction and demolition and this should be agreed as part of the construction management plan which would form part of the conditions of the planning approval.

Impact on heritage

The site is not within a Conservation Area and there are no listed buildings or structures within the application site. There are, however, listed buildings nearby that could be affected by the development.

The urban grain around the site is a mixture of low quality car parking, cleared sites and industrial buildings, dominated by the railway arches. The nearest homes are located at the Green Quarter.

A heritage assessment has been prepared in respect of this planning application which considered the impact on listed buildings which are found in close proximity to the application site along with non designated heritage assets as required by paragraph 194 of the NPPF. The impact on the setting of these heritage assets, was also evaluated within the 10 views identified within townscape assessment above.

There are 16 buildings within a 500 radius of the application site which are as follows:

- Grade II* Manchester Jewish Museum;
- Grade II Cheetham Town Hall Annexe (Former)
- Grade II Cheetham Town Hall (Former)
- Grade II Former Free Library
- Grade II Knowsley Hotel
- Grade II Churchyard Walls of Roman Catholic Church of St. Chad
- Grade II Roman Catholic Church of St. Chad and St. Chads Presbytery
- Grade II Former Synagogue
- Grade II Union Bridge
- Grade II Charter Street Mission (formerly Charter Street Ragged School and Working Girls' Home)
- Grade II Ashton House
- Grade II Victoria Station including concourse to rear with restaurant and booking hall
- Grade II Parkers Hotel

- Grade II Sharp Street Ragged School
- Grade II Cooperative Press
- Grade II Warehouse on West Corner of Junction with Simpson Street
- Grade II Marble Arch Inn

The nearest listed building which are deemed to be affected by the proposal are St Chads Church and Union Bridge. The remaining buildings are sufficiently far away from the proposal to not be affected by the proposal.

The proposed works would not be seen in the immediate setting to these listed buildings and therefore their significance would remain unaffected by the proposal.

Impact on archaeology

There is potential for below ground archaeology at the application site. In line with the comments and observations of GMAAS, a condition should be imposed which explores the remains in line with an appropriate strategy for the site.

Human Rights Act 1998 considerations

This application needs to be considered against the provisions of the Human Rights Act 1998. Under Article 6, the applicants (and those third parties, including local residents, who have made representations) have a right to a fair hearing and to this end the local planning authority must give full consideration to their comments.

Protocol 1 Article 1, and Article 8 where appropriate, confer(s) a right of respect for a person's home, other land and business assets. In taking account of all material considerations, including Council policy as set out in the Core Strategy and saved policies of the Unitary Development Plan, the Director of Planning, Building Control & Licensing has concluded that some rights conferred by these articles on the applicant(s)/objector(s)/resident(s) and other occupiers and owners of nearby land that might be affected may be interfered with but that that interference is in accordance with the law and justified by being in the public interest and on the basis of the planning merits of the development proposal. She believes that any restriction on these rights posed by the recommendation given is proportionate to the wider benefits of and that such a decision falls within the margin of discretion afforded to the Council under the Town and Country Planning Acts.

Recommendation: Approve

Article 35 Declaration

Officers have worked with the applicant in a positive and proactive manner based on seeking solutions to problems arising in relation to dealing with the planning application. Pre application advice has been sought in respect of this matter where early discussions took place regarding. Further work and discussion have taken place with the applicant through the course of the application. The proposal is considered to be acceptable and therefore determined within a timely manner.

Condition(s) to be attached to decision for approval OR Reasons for recommendation to refuse

1) The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason - Required to be imposed pursuant to Section 91 of the Town and Country Planning Act 1990.

2) The development hereby approved shall be carried out in accordance with the following drawings and documents:

Site Location Plan, Proposed Demolition Plan; Enabling Works Site Plan; Construction Haul Road Alignment Plan; Topographical Survey Plans; Supporting Planning Statement prepared by Avison Young; Archaeology Desk-Based Assessment prepared by Orion; Construction Methodology Plan prepared by BAM; Demolition Method Statement prepared by PP O'Connor; Ecological Enhancement Statement prepared by Avison Young; Heritage Statement prepared by Orion; Site Waste Management Plan prepared by BAM; Social Value Summary prepared by MCC and Avison Young; and Transport Statement prepared by Arup.

Environmental Statement prepared by Avison Young, including the following technical chapters:

Appendix 5.1 Creamline Demolition Methodology

a. Ecology & Trees;

Appendix 6.1 Ecology Desk Study (November 2021)

Appendix 6.2 Phase 1 Habitat Survey

Appendix 6.3 Bat Survey Report

Appendix 6.4 Arboricultural Impact Assessment

Appendix 6.5 Biodiversity Net Gain (BNG) Assessment

b. Climate Change;

c. Flood Risk & Drainage;

Appendix 8.1 Flood Risk Assessment

d. Ground Conditions;

Appendix 9.1 Northern Gateway Ground Conditions Desk Study

e. Landscape Visual Impact.

Appendix 7.1 Baseline and Assessment Table

Appendix 7.2 Figures and Viewpoint Photography

The above documents were stamped as received by the City Council, as Local Planning Authority, on the 17 November 2021

Reason - To ensure that the development is carried out in accordance with the approved plans. Pursuant to policies SP1 and DM1 of the Core Strategy.

3) No vegetation clearance shall take place during the optimum period for bird nesting (March - September inclusive) unless nesting birds have been shown to be absent, or, a method statement for the removal works including for the protection of any nesting birds is agreed in writing by the City Council, Local Planning Authority. Any method statement shall then be implemented for the duration of the works.

Reason - In order to protect wildlife from works that may impact on their habitats pursuant to policy EN15 of the Manchester Core Strategy (2012).

4) Notwithstanding Appendix 5.1 Creamline Demolition Methodology stamped as received by the City Council, as Local Planning Authority, on the 17 November 2021, prior to the commencement (excluding vegetation clearance and tree removal) a detailed construction management plan outlining working practices during construction shall be submitted for approval in writing by the City Council, as Local Planning Authority. This should include:

- o Display of an emergency contact number;
- o Details of Wheel Washing;
- o Dust and dirt suppression measures;
- o Compound locations where relevant;
- o Consultation with local residents and businesses;
- o Location, removal/loading, storage and recycling of waste, plant and materials;
- o Routing strategy and swept path analysis including details;
- o Parking of construction vehicles and staff;
- o Sheeting over of construction vehicles;

Manchester City Council encourages all contractors to be 'considerate contractors' when working in the city by being aware of the needs of neighbours and the environment. Membership of the Considerate Constructors Scheme is highly recommended.

The development shall be carried out in accordance with the approved construction management plan.

Reason - To safeguard the amenities of nearby residents, highway safety and the safety and operations of the adjacent tramway, pursuant to policies SP1, EN9, EN19 and DM1 of the Manchester Core Strategy (July 2012).

5) a) Prior to the commencement of the development (excluding vegetation clearance and tree removal), details of a Local Labour Proposal, in order to demonstrate commitment to recruit local labour for the duration of the construction of the development, shall be submitted for approval in writing by the City Council, as Local Planning Authority. The approved document shall be implemented as part of the construction of the development.

In this condition a Local Labour Proposal means a document which includes:

- i) the measures proposed to recruit local people including apprenticeships
- ii) mechanisms for the implementation and delivery of the Local Labour Proposal
- iii) measures to monitor and review the effectiveness of the Local labour Proposal in achieving the objective of recruiting and supporting local labour objectives

(b) Within one month prior to construction work being completed, a detailed report which takes into account the information and outcomes about local labour recruitment pursuant to items (i) and (ii) above shall be submitted for approval in writing by the City Council as Local Planning Authority.

Reason - The applicant has demonstrated a commitment to recruiting local labour pursuant to policies SP1, EC1 and DM1 of the Manchester Core Strategy (2012).

6) No development works (other than demolition, vegetation and tree clearance) shall take place until the applicant or their agents or their successors in title has secured the implementation of a programme of archaeological works in accordance with a Written Scheme

of Investigation (WSI) which has been submitted to and approved in writing by the local planning authority. The WSI shall cover the following:

1. A phased programme and methodology of investigation that will mitigate the impact of development on below-ground archaeological remains.
2. A programme for post-investigation assessment to include the production of a final report on the results of the investigations and their significance.
3. Deposition of the final report with the Greater Manchester Historic Environment Record.
4. Dissemination of the results commensurate with their significance.
5. Provision for archive deposition of the report and records of the site investigation.
6. Nomination of a competent person or persons/organisation to undertake the works set out within the approved WSI.

Reason- To record and advance understanding of heritage assets impacted on by the development and to make information about the heritage interest publicly accessible pursuant to policy EN3 of the Manchester Core Strategy (2012), saved policy DC20 of the Unitary Development Plan for the City of Manchester (1995) and NPPF.

7) a) Notwithstanding Appendix 9.1 Northern Gateway Ground Conditions Desk Study stamped as received by the City Council, as Local Planning Authority, on the 17 November 2021, before the development hereby approved commences (excluding demolition, vegetation and tree clearance), a report (the Preliminary Risk Assessment) to identify and evaluate all potential sources and impacts of any ground contamination, groundwater contamination and/or ground gas relevant to the site shall be submitted to and approved in writing by the City Council as local planning authority. The Preliminary Risk Assessment shall conform to City Council's current guidance document (Planning Guidance in Relation to Ground Contamination).

In the event of the Preliminary Risk Assessment identifying risks which in the written opinion of the Local Planning Authority require further investigation, the development shall not commence until a scheme for the investigation of the site and the identification of remediation measures (the Site Investigation Proposal) has been submitted to and approved in writing by the City Council as local planning authority.

The measures for investigating the site identified in the Site Investigation Proposal shall be carried out, before the development commences and a report prepared outlining what measures, if any, are required to remediate the land (the Site Investigation Report and/or Remediation Strategy) which shall be submitted to and approved in writing by the City Council as local planning authority.

b) When the development commences, the development shall be carried out in accordance with the previously agreed Remediation Strategy and a Completion/Verification Report shall be submitted to and approved in writing by the City Council as local planning authority prior to the first use of the development.

In the event that ground contamination, groundwater contamination and/or ground gas, not previously identified, are found to be present on the site at any time before the development is occupied, then development shall cease and/or the development shall not be brought into use until, a report outlining what measures, if any, are required to remediate the land (the Revised Remediation Strategy) is submitted to and approved in writing by the City Council as local

planning authority and the development shall be carried out in accordance with the Revised Remediation Strategy, which shall take precedence over any Remediation Strategy or earlier Revised Remediation Strategy.

Reason - To ensure that the presence of or the potential for any contaminated land and/or groundwater is detected and appropriate remedial action is taken in the interests of public safety, pursuant to policies DM1 and EN18 of the Core Strategy.

8) Prior to the commencement of the development (excluding demolition, vegetation and tree clearance), details of a scheme for managing and treating surface water shall be submitted for approval in writing by the City Council, as Local Planning Authority. The scheme shall include:

- The method of surface water disposal (construction, demolition, material stockpile and temporary haul road);
- How any surface water arising from will be treated prior to discharge in order to ensure the protection of controlled waters (construction, demolition, material stockpile and temporary haul road).

The approved scheme shall be implemented prior to the first use of the development and thereafter retained and maintained for the duration of the development.

Reason – In the interest of the development not harming the water environment pursuant to policy EN14 of the Manchester Core Strategy (2012).

9) In this condition "retained tree" means an existing tree, shrub or hedge which is to be as shown as retained on the approved plans and particulars as outlined in the arboricultural impact assessment prepared by TEP stamped as received by the City Council, as Local Planning Authority on the 17 November 2021 ; and paragraphs (a) and (b) below shall have effect until the expiration of 5 years from the date of the occupation of the building for its permitted use.

(a) No retained tree shall be cut down, uprooted or destroyed, nor shall any retained tree be topped or lopped other than in accordance with the approved plans and particulars, without the written approval of the local planning authority. Any topping or lopping approved shall be carried out in accordance with British Standard 5387 (Trees in relation to construction)

(b) If any retained tree is removed, uprooted or destroyed or dies, another tree shall be planted at the same place and that tree shall be of such size and species, and shall be planted at such time, as may be specified in writing by the local planning authority.

(c) The erection of fencing for the protection of any retained tree shall be undertaken in accordance with the approved plans and particulars before any equipment, machinery or materials are brought on to the site for the purposes of the development, and shall be maintained until all equipment, machinery and surplus materials have been removed from the site. Nothing shall be stored or placed in any area fenced in accordance with this condition and the ground levels within those areas shall not be altered, nor shall any excavation be made, without the written consent of the local planning authority.

Reason - In order avoid damage to trees/shrubs adjacent to and within the site which are of important amenity value to the area and in order to protect the character of the area, in accordance with policies EN9 and EN15 of the Core Strategy.

10) All tree work should be carried out by a competent contractor in accordance with British Standard BS 3998 "Recommendations for Tree Work".

Reason - In order avoid damage to trees/shrubs adjacent to and within the site which are of important amenity value to the area and in order to protect the character of the area, in accordance with policies EN9 and EN15 of the Core Strategy.

11) In the event that a phase of development and mitigation works in the Red Bank Neighbourhood, as outlined in the Ecological Enhancement Statement prepared by Avison Young stamped as received by the City Council, as Local Planning Authority, on the 19 November 2021, do not commence within 12 months of the completion of the enabling works hereby approved, a “Tree Replacement, Ecology and Biodiversity Net Gain Mitigation Strategy” to mitigate against the loss of green infrastructure, tree planting and biodiversity at the application site (including 10% biodiversity net gain) site shall be submitted for approval in writing by the City Council, as Local Planning Authority within one month of the expiration period.

The strategy shall include location/quantum of any mitigation measures within the Northern Gateway Strategic Regeneration Framework (SRF) area including details of planting, tree planting and biodiversity enhancement measures which equate to a 10% biodiversity net gain.

The mitigation Strategy shall be implemented in accordance with timescale agreed in writing with the City Council, as Local Planning Authority and thereafter retained and maintained in situ.

If within a period of 5 years from the date of the planting of any tree or shrub, that tree or shrub or any tree or shrub planted in replacement for it, is removed, uprooted or destroyed or dies, or becomes, in the opinion of the local Planning Authority, seriously damaged or defective, another tree or shrub of the same species and size as that originally planted shall be planted at the same place.

Reason - In the interest of visual and residential amenity should the redevelopment of the site not be forthcoming in line with regeneration aspirations together with mitigating against the loss of vegetation at the application site pursuant to policies SP1, EN9, EN17 and DM1 of the Manchester Core Strategy (2012).

12) (a) Prior to the commencement of this development (excluding demolition, vegetation and tree clearance), a “Tree Replacement, Ecology and Biodiversity Net Gain Mitigation Strategy” for the four phases of development in the Red Bank Neighbourhood (and/or within the Northern Gateway Strategic Regeneration Framework (SRF) area), as indicated in the Ecological Enhancement Statement prepared by Avison Young stamped as received by the City Council, as Local Planning Authority, on the 19 November 2021, shall be submitted for approval in writing by the City Council, as Local Planning Authority.

This shall include:

- Ecological evaluation of the current condition and value of development hereby approved (both quantitative and qualitative);
- Ecological evaluation of the current condition and value of the subsequent phases of development in the Red Bank Neighbourhood (both quantitative and qualitative);
- A mitigation and implementation strategy (including a commitment to 10% biodiversity net gain); and
- A monitoring, management and verification strategy to ensure that the mitigation is achieved across the four phases of development (and/or within the Northern Gateway SRF area) including details to update the Tree Replacement, Ecology and Biodiversity Net Gain Mitigation Strategy following the completion each phase of development.

(b) Prior to the first use of each phase of development agreed within part (a) of this condition, a verification report will be required to validate that the works undertaken at that stage conforms to the recommendations and required approved within part of part (a) of this planning condition including its contribution towards the 10% biodiversity net gain.

(c) In instances of non-conformity, these shall be detailed along with mitigation measures required to ensure compliance with the Tree Replacement, Ecology and Biodiversity Net Gain Mitigation Strategy. A verification report and measures shall be agreed until such a time as all four phases of development comply with parts (a) and (b) of this planning condition.

Any mitigation measures shall be implemented in accordance with a timescale to be agreed with the City Council, as Local Planning Authority, and thereafter retained and maintained in situ.

If within a period of 5 years from the date of the planting of any tree or shrub, that tree or shrub or any tree or shrub planted in replacement for it, is removed, uprooted or destroyed or dies, or becomes, in the opinion of the local Planning Authority, seriously damaged or defective, another tree or shrub of the same species and size as that originally planted shall be planted at the same place.

Reason – In the interest of securing a biodiversity mitigation strategy for the Red Bank Neighbourhood pursuant to policies SP1, EN9, EN17 and DM1 of the Manchester Core Strategy (2012).

13) Prior to the commencement of development (excluding vegetation clearance and tree removal), a scheme of highway works shall be submitted for approval in writing by the City Council, as Local Planning Authority. This shall include:

- Details of dropped kerbs and tactile paving to all site access points;
- Provision of temporary Traffic Regulation Orders (TROs) at access and egress points;
- Amendments to the existing access from Red Bank including provision of a swept path assessment to demonstrate that the largest vehicle can enter the site;
- Reinstatement of redundant entrances (during and on completion of the works);

The approved scheme shall be implemented and be in place for the duration and completion of the development and thereafter retained and maintained in situ.

Reason - To ensure safe access to the development site in the interest of pedestrian and highway safety pursuant to policies SP1, EN1 and DM1 of the Manchester Core Strategy (2012).

14) Prior to the commencement of the development (excluding vegetation clearance and tree removal) details of the siting, scale and appearance of the proposed boundary treatment shall be submitted for approval in writing by the City Council, as Local Planning Authority. This shall include details that all boundary treatment is visually permeable from 600mm upwards and that gates open inwards and are set back a minimum of 5 metres from the edge of the carriageway. The approved details shall be implemented upon commencement of the development and thereafter retained and maintained in situ for as long as the development remains in use.

Reason – In the interest of visual amenity, highway and pedestrian safety pursuant to policies SP1, EN1 and DM1 of the Manchester Core Strategy (2012).

15) Prior to the commencement of the development (excluding demolition, vegetation clearance and tree removal) a pedestrian management plan and car parking layout plan shall be

submitted for approval in writing by the City Council, as Local Planning Authority. The details shall include proposed for segregated footpaths within and around the application site together with number, location and size of car parking bays (including accessible bays).

The approved details shall be implemented upon commencement of the development and thereafter retained and maintained in situ for as long as the development remains in use.

Reason – In the interest of highway and pedestrian safety pursuant to policies SP1, EN1 and DM1 of the Manchester Core Strategy (2012).

16) Prior to the commencement of the development (excluding demolition, vegetation clearance and tree removal), a surface water drainage scheme, based on sustainable drainage principles, shall be submitted for approval in writing by the City Council, as Local Planning Authority. The approved details shall be implemented prior to the first use of the development and thereafter retained and maintained.

Reason: To prevent the increased risk of flooding, to improve and protect water quality and ensure future maintenance of the surface water drainage system pursuant to policy EN17 of the Manchester Core Strategy (2012).

17) Prior to the commencement of the development (excluding demolition, vegetation clearance and tree removal), details of the site investigations to establish the Cheetham Hill Junction Drain culverted ordinary watercourse shall be submitted for approval in writing by the City Council, as Local Planning Authority. This shall include survey details (to determine existence, location and condition) together with measures to protect any culvert during construction and operation phases of the development hereby approved. The approved details shall be implemented prior to the first use of the development and thereafter retained and maintained.

Reason: In the interest of securing a safe and proper drainage of ordinary watercourses pursuant to policy EN17 of the Manchester Core Strategy (2012).

Informative

MCC records highlight that the underground Cheetham Hill Junction Drain is located onsite, while our records are frequently updated to ensure the highest level of accuracy, the records cannot guarantee 100% accuracy for all MCC underground assets. Therefore, we would request that the applicant informs the onsite contractor to remain observant and to take the appropriate safety precautions during excavation works. If any major unknown drainage assets are found beneath the site, then further investigation works should take place to identify the asset and MCC should be contacted immediately.
