

Site Management Plan

Location: El-Ammar Bakery, Unit 7 City Course Trading Estate, M11 2DW

1. Servicing and deliveries will be made through the front entrance to the main shop for anything to do with deliveries for shop goods. As the occupier of both units is the same, any deliveries for the storage area of Unit 7 will be taken through the unit 6 shutter door and taken round to the storage area.
2. Car parking will only be required for the seating area of the site and customers will be encouraged to walk or take public transport to the area. If customers wish to drive, 6 no. parking spaces are provided on site for customer parking.
3. Waste will be handled by a commercial waste company and will serve the café area and the current requirements for unit 6. There is already a large commercial 16 cubic meters sized bin on site and this is adequate for day-to-day collection of waste.
