Description

Please describe details of the proposed development or works including any change of use.

I am proposing to convert a back storage area of a retail unit into a sui generis takeaway and operate it as a fully functioning dark/ghost kitchen whereby trading is solely on a home delivery basis only. The current storage area has electric shutters along the back wall which I'd like to remove and brick back up and create a new service door/fire exit in the process. As the back storage area is single storey, I would like to install an extraction fan ventilation system with an air vent going up and out of the ceiling which will comply with all the current regulations. A fireproof stud wall will be built within the room to create the kitchen, with the remaining space to be used as a stockroom. The kitchen will contain fridges, freezers, prep tables, commercial double sink, fryers and a stove/griddle.
