By accepting this quotation, you and your waste are in safe hands. Having emptied our first bin over 14 years ago, we have grown to be one of the leading waste management companies in the North West, serving 6,000 addresses each day. In addition to operating some of the greenest waste trucks available, we are also committed to capturing our carbon emissions through association with a tree planting scheme. Over the last two years we have supported the planting of over 12,000 trees locally.

Recognising our environmental responsibilities is something we do each day, which is why we have invested £1 million in our waste recovery facility. This ensures that we recvle as much waste as possible. with residual waste beina used for enerav production. All of this is supported by 'best in class customer service'. where our customers are

With over a decade of experience in collecting and managing waste contracts, we are able to offer a single source solution. Here at Fresh Start Waste, we like to keep things simple.

 Food recycling 100% of all food waste is used in the production of green energy, contributing to the government's renewables target.	 Glass waste By recycling glass, we can conserve non-renewable fossil fuels and reduce the emission of harmful gasses into the atmosphere.	 Recycling Dynamic recovery processes for all your recyclables via our own materials recycling facility (MRF).	 Metal recycling Containers ranging in size from a small skip to a large bulk container, we can help you unlock the value of your scrap.	 General waste Landfill avoidance solutions prioritised to ensure materials that cannot be recycled are used for energy generation.	 Confidential waste With a range of consoles or bins, we offer both on-site and off-site shredding. All destruction compliant with the Data Protection Act.	 Balers or compactors Where space is an issue, our range of balers or compactors could be the option for you.
 Clinical waste Defined in the Controlled Waste Regs 2012, clinical waste must be packaged, handled and collected under controlled conditions.	 Specialist recycling If you are looking to recycle more, we'll be able to offer advice and recommendations.	 Sanitary waste With a range of signature disposal bins, and wide reaching coverage, we can set a collection schedule to meet your needs.	 Waste Electrical and Electronic Equipment We provide containers for each type of waste and transport it to a specially equipped location for processing.	 Hazardous waste Waste harmful to health? Whatever your waste stream, our consultants can offer sensible advice and recommendations.	 Skip services We cater for every type of waste with our trade skip hire, with sizes ranging from 4 yard to 12 yard.	 Bin washing Schedule a deep clean, disinfect and deoderise to suit your business needs – no water supply needed.

What our customers think...

Fresh Start Waste are fantastic to work with, approachable and supportive. They have a fantastic Corporate Social Responsibility Policy and give back to the community which is such an asset to companies. I wouldn't hesitate to recommend.

I've worked with fresh start for a number of years and can honestly say their service, commitment to quality and communication are 2nd to none.
