Thank you for your email enquiry regarding installation of a new water treatment plant on land adjoining 20 Stenner Lane. I am sorry for the delay in replying to you; this was to allow time for the Council's Flood Risk Management team to provide me with some guidance.

The works will need planning permission but not listed building consent. However, as both properties are within the Didsbury St. James conservation area, a Heritage Statement which assesses the impact on the character of the cottages and wider conservation area should be provided. This would not need to be a lengthy document in this case.

If any trees or tree roots will be affected by the development (felled, lopped or pruned) a tree survey must also be submitted as all trees are protected within the conservation area boundary.

As your property is within a functioning flood plain, the Environment Agency would need to be consulted regarding this proposal. We would need to see evidence submitted in the form of a Flood Risk Statement that the Environment Agency are happy with the proposal.

As this involves a water treatment plant which could pose a significant contamination risk, we would need to see construction details of the plant ensuring that no flood water would be able to infiltrate into the water treatment system.

Lastly, wherever possible, we would advise that the top of the plant is situated above the 1 in 100-year flood event as defined by the Environment Agency, plus an allowance for climate change. From this the Environment Agency may request that flood compensatory storage is sought to ensure that the flood waters are not pushed to surrounding properties. The Environment Agency should however confirm whether this is necessary in this case.

I hope that this is helpful to you.

24. Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

24. Authority Employee/Member

It is an important principle of decision-making that the process is open and transparent. ☐ Yes ☒ No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
