GIFA:
“Gross Internal Floor Area” means the following: The whole enclosed area of the building within the external walls taking each floor into account, measured from the internal face of the external wall lining (inclusive of net areas occupied by internal walls and partitions).
Area includes lifts & stairwells but excludes voids in floor.

NOTES:
- Accommodation schedule calculated to face of internal partitions and internal face of external walls.
- Partition ("Construction") allowance not included in accommodation schedule calculations. Variance between GIFA total and Room Schedule total accounts for partitions / construction elements. Refer to drawing 00501 for GIFA plans.
- IPS zones included in room areas.
